Engaging the Next Generation of Aviation Professionals Mar 22 2022 Engaging the Next Generation of Aviation Professionals is an edited volume that brings together a diverse set of academic and professional perspectives within the three themes of attracting, educating, and retaining the next generation of aviation professionals (NGAP). This compilation is the first academic work specifically targeting this critical issue. The book presents a rich variety of perspectives, academic philosophies, and real-world examples. Submissions include brief case studies, longer scholarly works from respected academics, and professional reflections from individuals who have made important contributions to their field. The book includes academic chapters that explore the topic from a more theoretical standpoint yet are accessible and understandable to a professional audience. These are complemented by both broad and specific practice examples that describe initiatives and applications occurring in the industry around the three themes. All submissions include descriptive insights, experiences, and first-hand accounts of accomplishments, intended to support the work of other professionals managing NGAP issues. This work will be valuable to anyone involved in attracting, educating, or retaining NGAP, including academics, operators, national and international regulators, and outreach coordinators, among many others.

Health, Illness, and Society Aug 23 2019 This engaging text provides a sociological perspective on health, illness, and health care. Serving as an introduction to medical sociology for undergraduate and graduate students, it also presents a summary of the field for medical sociologists and for public health scholars and practitioners. A highlight of the text is its emphasis on the

social roots of health and disease and on the impact of social inequality on health disparities and the quality of health care. The book also critically examines health care in the United States and around the world and evaluates the achievements and limitations of the Affordable Care Act and other recent health care reform efforts.

Digital Distractions in the College Classroom May 24 2022

Student misuse of mobile technology for off-task purposes has become an international phenomenon in college classrooms. When a student's self-regulation of learning breaks down in the classroom, or when their task motivation begins to wane, turning toward their digital devices for leisure purposes is often the result. Although numerous studies have independently examined student digital distraction in the context of the college classroom, there remains a need to organize the field's collective understanding of the phenomenon. *Digital Distractions in the College Classroom* explores the challenges that arise from student digital distraction along with potential solutions, including how mobile technology can be leveraged to improve student motivation, self-regulation of learning, and achievement. Addressing topics such as academic motivation and instructional design, this book is ideal for instructional designers, instructors, researchers, administrators, academicians, and students.

Soar Aug 27 2022 Newbery Honor winner Joan Bauer hits a home run with her newest protagonist, who always sees the positive side of any situation. Jeremiah is not one to let anything keep him down. Starting with his adoption by computer genius Walt, Jeremiah has looked on his life as a series of lucky breaks. When a weak heart keeps him from playing his beloved baseball, Jeremiah appoints himself the team coach. When Walt has to move for another new assignment, Jeremiah sees it as a great chance to explore a new town. But no sooner do they arrive than a doping scandal is revealed and the town feels betrayed and disgraced. Jeremiah takes it as his personal mission to restore

morale and help the teams bounce back and remember how to soar. Full of humor, heart, and baseball lore, Soar is Joan Bauer at her best.

Web 2.0 and Cloud Technologies for Implementing Connected Government Feb 21 2022 The emergence of cloud computing, internet of things, mobile technologies, and social networking have created better-connected members of the public who are digitally linked with each other in real time. Establishing this two-way interaction between citizens and governments has thus become attractive and an expected feature of governments worldwide. Previously, federal and local governments relied on first-generation technologies to provide basic levels of automation and digitization. Now, because of their desire to become more open, transparent, accountable, and connected, newer technologies including cloud computing, mobile networking, big data analytics, Web 2.0, and social media must be developed and utilized. *Web 2.0 and Cloud Technologies for Implementing Connected Government* is an essential reference source that presents various dimensions of connected government and connected e-governance visions as well as the latest emerging technologies. Offering development methodologies, practical examples, best practices, case studies, and the latest research, this book covers new strategies for implementing better-connected government models and the technologies that serve to establish these frameworks, including in-depth examinations of mobile technologies, automation, business intelligence, etc. as well as the various ethical and security issues surrounding the use and protection of data. This book is essential for federal, state, and local government officials; policymakers; civil servants; IT specialists; security analysts; academicians; researchers; and students.

China's Rise to Power in the Global Order Jan 08 2021 This book examines the foundations of China's grand strategy as it is critical to any assessment of current and future Chinese foreign policy.

and global strategic behavior, especially Beijing's policies toward the USA. This eclectic study aims to analyze the current Chinese and American flexible grand strategies, based on present complexity and disorder. It identifies the major building blocks of both strategies, their major material, and ideational drivers and assesses how they might evolve in the future. Additionally, the author looks at China's relations with important international players such as Russia, ASEAN, UN, EU, and BRICS.

COVID-19 and the Structural Crises of Our Time Mar 30 2020

"We live in paradoxical times. Traditionally, the West has led the world in theory and practice. Yet, recent developments, from COVID-19 to the storming of the US Capitol, show how lost the West has become. This loss of direction has deep roots. In their usual thoughtful and incisive fashion, Lim Mah-Hui and Michael Heng Siam-Heng, draw out the deeper origins of our current crises and show us a new way forward. A must-read for anyone who wants to understand our strange times." -- Kishore Mahbubani, founding Dean of the Lee Kuan Yew School of Public Policy, National University of Singapore, is the author of *Has China Won?* "A powerful and compelling critique of neoliberal globalization and its potentially devastating, but long underestimated, consequences for financial stability, the environment, social equity and democracy. COVID-19 has laid bare these dysfunctions and stresses. But this is not a pessimistic book. The authors argue, correctly, that we may be on the cusp of another Great Transformation. The choices we make today to make markets more resilient, improve social protection, and preserve our freedoms could lay the foundations for a sustainable globalization that works for future generations." -- Donald Low, Professor of Practice in Public Policy and Director of the Institute for Emerging Market Studies, Hong Kong University of Science and Technology "This fascinating book highlights the interplay between financial and health crises that the COVID-19 pandemic exposed. Financialized capitalism is bad for the planet."

human health, and creates more unequal and insecure societies. The authors make a strong and convincing case for re-embedding markets into society and finance into the real economy.” --Jayati Ghosh, Professor of Economics, University of Massachusetts at Amherst, USA “Lim and Heng’s ambitious volume argues that 2020 was the year of the global ‘perfect storm’ of multiple crises, with the COVID-19 pandemic exacerbating financial, economic, socio-political and environmental breakdowns. They extend Karl Polanyi’s original insights to appeal for a sustainable global New Deal. While the reader may not agree with all their theses, the scope of their coverage and ambition will set the stage for debates over the *annus horribilis*.” -- Jomo K.S., Founder-chair, IDEAS www.network.ideas; former United Nations Assistant Secretary General "This book provides plenty of food for thought for many pondering if the COVID-19 crisis could lead to a major transformation of the global economic system shaped by unfettered market forces and policies of governments in their service."-- Yilmaz Akyuz, former Director, UNCTAD, Geneva

Report Oct 25 2019

Miscellanies, Poetry, and Authorship, 1680-1800 Sep 23 2019

This book is a critical study of the ancestors of contemporary poetry anthologies: the poetic miscellanies of the late seventeenth and eighteenth centuries. It argues that miscellanies are a distinctive kind of literary collection and that their popularity in the period 1680–1800 had a far-reaching impact on authors, publishers, and readers of poetry. This study expands the definition of miscellanies to include single-author collections called miscellanies as well as the multiple-author collections that have traditionally been the focus of scholarly attention. It shows how multiple-author miscellanies fostered different kinds of literary community and explores the neglected role of single-author miscellanies in the self-fashioning of eighteenth-century writers. Later chapters examine miscellanies’ relationships with periodicals, their contribution to the formation of

[The Immigration Crisis in Europe and the U.S.-Mexico Border in the New Era of Heightened Nativism](#) Jul 22 2019

In *The Immigration Crisis in Europe and the U.S.-Mexico Border in the New Era of Heightened Nativism*, Victoria Carty compares the immigration crises in the European Union and the United States. Beginning in 2014, the Arab Spring upheavals and failed states in Northern Africa and the Middle East overwhelmed many European countries which the European Union system was not prepared for. In the Americas, failed states in Central America such as Honduras, Guatemala, and El Salvador also led to an unexpected influx of immigrants to the United States, many of them unaccompanied minors, fleeing gangs, violence and poverty. In *The Immigration Crisis in Europe and the U.S.-Mexico Border*, Carty studies theories of immigration, social movements, and critical race theory to provide a better understanding of the current immigration crises in Europe and the United States. Carty shows that the high volume of immigration in both

United States has led to a resurgence of nativist sentiments and white supremacy groups.

Russian Cyber Operations Aug 03 2020 Russia has deployed cyber operations while maintaining a veneer of deniability and avoiding direct acts of war. In *Russian Cyber Operations*, Scott Jasper dives into the legal and technical maneuvers of Russian cyber strategies, proposing nations develop solutions for resilience to withstand attacks.

Mindset Matters Dec 27 2019 If businesses can be agile to survive in an uncertain world, so can you. The future of work requires you to move flexibly and quickly to react to change; that's where your mindset matters. Who wouldn't want to know how to best navigate the choppy waters of change? Resilience is the skill to master for the future of work. The capacity to overcome adversity and, crucially, to learn from experiences and grow, resilience is the tool to have in your business leadership arsenal. From an individual perspective, it will lead to better performance and wellbeing, and for your team, you can positively affect change and build a culture of resilience that permeates your business. In *Mindset Matters* chartered psychologist and star LinkedIn Learning instructor, Gemma Leigh Roberts, teaches you why mental agility is the key ingredient to developing resilience and how to achieve it. This book will teach you the principles of thriving in uncertainty. From changing perspectives, emotional flexibility, a growth mindset, to cementing your mindset shift in others and your team, you will learn research-backed strategies that will allow you to grow your resilience and use change to your advantage. With energy and speed, you can embrace moments of pivots and ensure you and your business bounce back from whatever the world throws at you next.

Black Smoke Apr 23 2022 Across America, the pure love and popularity of barbecue cookery have gone through the roof. Prepared in one regional style or another, in the South and beyond, barbecue is one of the nation's most distinctive

arts. And people aren't just eating it; they're also reading books and articles and watching TV shows about it. But why is it, asks Adrian Miller—admitted 'cuehead and longtime certified barbecue judge—that in today's barbecue culture African Americans don't get much love? In *Black Smoke*, Miller chronicles how Black barbecuers, pitmasters, and restauranteurs helped develop this cornerstone of American foodways and how they are coming into their own today. It's a smoke-filled story of Black perseverance, culinary innovation, and entrepreneurship. Though often pushed to the margins, African Americans have enriched a barbecue culture that has come to be embraced by all. Miller celebrates and restores the faces and stories of the men and women who have influenced this American cuisine. This beautifully illustrated chronicle also features 22 barbecue recipes collected just for this book.

Principles of Planning, Evaluation, and Research for Health Care Programs

Jun 25 2022 Principles of Planning, Evaluation, and Research for Health Care Programs provides a basic understanding of the importance of and the key approaches used to conduct health program research and evaluations. The book also examines ethical and cultural competency issues unique to conducting evaluations. Additionally, it offers an introduction to systems thinking and its implications for evaluating the impact of interventions. Written with the undergraduate in mind, this book is ideal for students pursuing a wide spectrum of health careers. Through activities and case studies, readers will gain a solid foundation for understanding all aspects of evaluation while developing the critical thinking skills needed to dissect peer-reviewed publications as well as popular media health claims.

each other. Throughout human history, the democratization of technology making a technology available to the masses, has brought about sweeping cultural, social, political, and societal changes. In the last half-century, the democratization of computers, information, the Internet, and social media have revolutionized and transformed our lives. We now stand at the beginning of a new era sure to bring about waves of new revolutions, the cognitive systems era. Until now, humans have done all of the thinking. However, our lives are about to be infused with artificial entities capable of performing high-level cognitive processing previously possible only in the human mind. Systems capable of this kind of "synthetic cognition" will achieve and surpass the level of human experts in almost every field of endeavor. Far from replacing humans, these cognitive systems will be our collaborators, teachers, confidants, colleagues, and companions. The future will belong to those who can better partner with these cognitive systems. Made available to the average person via the Internet, handheld devices, and through ordinary objects all around us, expertise will become democratized. Everything will change when anyone has access to expertise in any field and new things will be possible. The democratization of expertise is the foundation on which our society's revolutions will be built over the next half-century. This book discusses societal and cultural revolutions throughout history brought about by the adoption of new technology and gives brief histories of human cognitive augmentation and artificial intelligence. In the coming cognitive systems era, humans, by collaboratively partnering with cognitive systems, will together achieve expert-level performance—synthetic expertise—with humans performing some of the cognitive processing and cognitive systems performing some. As the capabilities of cognitive systems improve over time, the balance of thinking will shift from being mostly human to mostly artificial.

describe this shift. Drawing from previous research in cognitive systems and intelligent agent theory, the knowledge stores required for expertise are identified in a Knowledge Level description of expertise. This book introduces a new abstract level, called the Expertise Level to describe the skills needed for expertise. Combining the knowledge-level and expertise-level descriptions, this book introduces the Model of Expertise. This book demonstrates use of the Model of Expertise by presenting several synthetic expert architectures: a synthetic teacher (Synthia), a synthetic friend/therapist (Sy), a synthetic elderly companion (Lois), a synthetic research companion (Synclair), and an automated scientific hypothesis explorer (Ashe). This book is intended for anyone interested in the fields of cognitive systems, cognitive computing, cognitive augmentation, or artificial intelligence or the impact of technologies from these fields on society. Anyone doing research and development in the area of cognitive systems or artificial intelligence will find this book particularly useful.

Uber Dec 07 2020 Uber is one of the most innovative companies of our time. This book provides a detailed analysis of the company and its success, beyond the headlines about safety and culture. Americans are so accustomed to using Uber today that the name of the innovative ride-sharing company has almost become a verb, as in "to Uber" somewhere, and yet Uber has been around only since 2010. In less than a decade, Uber has disrupted the ride-hailing industry, from making it easier and more affordable to become an Uber driver than a cab driver to rating riders as well as drivers. As an early pioneer in using technology to create a new business model and new efficiencies, Uber is considered one of the most important case studies in the sharing economy.

However, little in-depth information exists on this innovative company. This book traces Uber's origin and evolution in the face of competitive pressures, discusses the company leadership and corporate culture, addresses such controversies as

driver safety and sexual harassment of female employees, and explores how the company is addressing these challenges. Students of business, entrepreneurs, and anyone interested in the development and exponential growth of the sharing economy will benefit from reading this book. Provides key insights into the inner workings of the Sharing Economy Delivers a comprehensive overview of Uber's technological innovations, global expansion, and business model Explores the leadership challenges faced by founder Travis Kalanick Reveals how the company has addressed reports of a sexist corporate culture

Rosen's Emergency Medicine - Concepts and Clinical

Practice E-Book Nov 06 2020 For nearly 40 years, Rosen's Emergency Medicine has provided emergency physicians, residents, physician assistants, and other emergency medicine practitioners with authoritative, accessible, and comprehensive information in this rapidly evolving field. The fully revised 10th Edition delivers practical, evidence-based knowledge and specific recommendations from clinical experts in a clear, precise format, with focused writing, current references, and extensive use of illustrations to provide definitive guidance for emergency conditions. With coverage ranging from airway management and critical care through diagnosis and treatment of virtually every emergency condition, from highly complex to simple and common, this award-winning, two-volume reference remains your #1 choice for reliable, up-to-date information across the entire spectrum of emergency medicine practice. Offers the most immediately clinically relevant content of any emergency medicine resource, providing diagnostic and treatment recommendations and workflows with clear indications and preferred actions. Contains eight entirely new chapters covering coronaviruses/COVID-19, the morbidly obese patient, human trafficking, sexual minority (LGBTQ) patients, social determinants of health, community violence, and humanitarian aid in war and crisis. Features over 1,700 figures, including more

anatomy drawings, graphs and charts, algorithms, and photos. Includes new information across the spectrum of emergency care, such as adult and pediatric airway management, shock, pandemic disease, emergency toxicology, sepsis syndrome, resuscitation, medical emergencies of pregnancy, the immunocompromised patient, child abuse, pediatric sedation, pediatric trauma, and more. Features revised and refined chapter templates that enhance navigation, making it easy to find key information quickly. Provides access to more than 1,200 questions and answers online to aid in exam preparation, as well as two dozen new video clips showing how to best perform critical emergency procedures in real time. Reviewed and verified cover-to-cover by a team of expert clinical pharmacists to ensure accuracy and completeness of all drug information and treatment recommendations.

Soar Oct 05 2020 Captain Bunn founded SOAR to develop effective methods for dealing with flight anxiety. Therapists who have found this phobia difficult to treat will find everything they need to give their clients success. Anxious flyers who have “tried everything” to no avail can look forward to joining the nearly 10,000 graduates of the SOAR program who now have the whole world open to them as they fly anxiety free wherever they want. This approach begins by explaining how anxiety, claustrophobia, and panic are caused when noises, motions—or even the thought of flying—trigger excessive stress hormones. Then, to stop this problem, Captain Bunn takes the reader step-by-step through exercises that permanently and automatically control these feelings. He also explains how flying works, why it is safe, and teaches flyers how to strategically plan their flight, choose the right airlines, meet the captain, and so on. Through this program, Captain Bunn has helped thousands overcome their fear of flying. Now his book arms readers with the information they need to control their anxiety and fly comfortably.

Humanity Sep 28 2022 This publication highlights the fast-moving technological advancement and infiltration of Artificial Intelligence into society. Concepts of evolution of society through interconnectivity are explored, together with how the fusion of human and technological interaction leading to Augmented Humanity is fast becoming more than just an endemic phase, but a cultural phase shift to digital societies. It aims to balance both the positive progressive outlooks such developments bring with potential issues that may stem from innovation of this kind, such as the invasive procedures of bio hacking or ethical connotations concerning the usage of digital twins. This publication will also give the reader a good level of understanding on fundamental cyber defence principles, interactions with Critical National Infrastructure (CNI) and the Command, Control, Communications and Intelligence (C3I) decision-making framework. A detailed view of the cyber-attack landscape will be garnered; touching on the tactics, techniques and procedures used, red and blue teaming initiatives, cyber resilience and the protection of larger scale systems. The integration of AI, smart societies, the human-centric approach and Augmented Humanity is discernible in the exponential growth, collection and use of [big] data; concepts woven throughout the diversity of topics covered in this publication; which also discusses the privacy and transparency of data ownership, and the potential dangers of exploitation through social media. As humans are become ever more interconnected, with the prolificacy of smart wearable devices and wearable body area networks, the availability of and abundance of user data and metadata derived from individuals has grown exponentially. The notion of data ownership, privacy and situational awareness are now at the forefront in this new age.

how to handle different types of trauma and cardiac arrest

- Detailed anatomical diagrams to provide the reader with the necessary context to carry out the practical elements of their job more effectively
- Evidence-based throughout and up-to-date with the latest guidance, policy and research
- Specific chapters on each area of patient assessment and how to manage this effectively
- Chapters dedicated to various patient populations such as obstetrics, paediatrics and older people
- In-depth chapter on supporting senior clinicians and how best to assist the paramedic as a support worker

This second edition has been brought up to-date with the latest national guidance. The book is appropriate for a Level 3 diploma course or similar that qualifies you to work as a support worker and covers learning objectives from a range of courses offered by ambulance services. It is an essential resource for anyone wanting to prepare themselves for a role within the ambulance service as well as those hoping to become a more effective member of an emergency ambulance crew.

Special Report - 2020 FAO Crop and Food Supply Assessment Mission (CFSAM) to the Republic of the Sudan Feb 09 2021 With the support of the Food and Agriculture Organization of the United Nations (FAO) and other partners, including the World Food Programme (WFP), the Famine Early Warning Systems Network (FEWS NET) and USAID, between 17 December 2020 and 3 January 2021, the Ministry of Agriculture and Natural Resources (MoANR) carried out its annual assessment Mission to determine crop production and food supply situation throughout the 18 states of the country. Due to the COVID-19 pandemic and the restrictive measures introduced to contain it, the methodology was modified, with institutions of the Federal Government, normally conducting the survey, delegating to staff at State level the task of collecting all the requested data, under the supervision of federal staff from the Food Security Technical Secretariat (FSTS) and the General Directorate of Planning and

Agricultural Economics (GDPAE).

Yes to the City Jun 13 2021 A fascinating account of the growing "Yes in My Backyard" urban movement The exorbitant costs of urban housing and the widening gap in income inequality are fueling a combative new movement in cities around the world. A growing number of influential activists aren't waiting for new public housing to be built. Instead, they're calling for more construction and denser cities in order to increase affordability. *Yes to the City* offers an in-depth look at the "Yes in My Backyard" (YIMBY) movement. From its origins in San Francisco to its current cadre of activists pushing for new apartment towers in places like Boulder, Austin, and London, Max Holleran explores how urban density, once maligned for its association with overpopulated slums, has become a rallying cry for millennial activists locked out of housing markets and unable to pay high rents. Holleran provides a detailed account of YIMBY activists campaigning for construction, new zoning rules, better public transit, and even candidates for local and state office. YIMBY groups draw together an unlikely coalition, from developers and real estate agents to environmentalists, and Holleran looks at the increasingly contentious battles between market-driven pragmatists and rent-control idealists. Arguing that advocates for more housing must carefully weigh their demands for supply with the continuing damage of gentrification, he shows that these individuals see high-density urbanism and walkable urban spaces as progressive statements about the kind of society they would like to create. Chronicling a major shift in housing activism during the past twenty years, *Yes to the City* considers how one movement has reframed conversations about urban growth.

Literature and Social Media May 12 2021 From Instapoetry to BookTube, contemporary literary cultures and practices are increasingly intertwined with social media. In this lively and wide-ranging study, Bronwen Thomas explores how social media provides new ways of connecting with and redisc

established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression. The book takes a 360° approach to the subject, combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks, and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced, shared and circulated. The first study of its kind to focus specifically on social media, *Literature and Social Media* provides a timely and engaging account of the state of the art, while interrogating the rhetoric that so often accompanies discussion of the 'new' in this context.

Marketing Strategy Nov 18 2021 Learn how to think and act like an effective marketer and forward-focused disruptor in today's dynamic, fast-paced business environment with Ferrell/Hartline/Hochstein's *MARKETING STRATEGY*, 8E. You learn to develop long-term, customer-oriented marketing strategy and successful marketing plans with this edition's systematic, reader-friendly approach. The latest examples from organizations as familiar as Spotify, Nintendo and Microsoft work with updated vignettes and the latest research and data. New cases from Tesla, Netflix and even the recent COVID-19 pandemic clearly illustrate the need for marketers to think proactively and anticipate change. You examine today's trends, from strategic digital marketing tools and integrated marketing communication to new marketing models. This edition also discusses product labeling, social media segmentation, crisis preparedness and innovation in global marketing as you learn to analyze, plan and implement effective marketing strategies. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Unleash Your God-Given Healing Jul 14 2021 Ginny Brant's cancer diagnosis sent her on a quest to discover what God had

health nut to contract a deadly and aggressive form of breast cancer. What she found may surprise and inspire you. Whether you're determined to prevent this deadly disease, survive it, or prevent its recurrence, this book pulls back the curtain on cancer and answers the question "What can I do to help my doctor beat this disease?" She challenges you to change what your doctor has no control over—your lifestyle and health habits. Brant connects the dots between nutrition, lifestyle, integrative and conventional medicine, and biblical wisdom to reveal how your body was created with self-healing mechanisms that work optimally when you do your part. But you need to get back to the Garden of Eden—the basics in life. By implementing a few lifestyle changes, you can begin building your immune system while lowering your toxic load. Learn how to enable your body to work as God intended, thereby unleashing your God-given healing!

Ambulance Care Practice Sep 16 2021 Brought up-to-date with the latest guidance, research and policy, this second edition of Ambulance Care Practice is an essential guide for paramedic students, trainee associate ambulance practitioners, those studying towards a certificate in first response emergency care and other ambulance clinicians. relevant to associate practitioner level including drug administration, mental health and end of life care as well as an in-depth chapter on assisting the paramedic. • In line with the National Education Network for Ambulance Services standards The book covers learning objectives from a range of courses offered by ambulance services. It is an essential resource for anyone wanting to prepare themselves for a role within the ambulance service as well as those hoping to become a more effective member of an emergency ambulance crew.

Soar, Adam, Soar Mar 10 2021 An intense account of Adam's life and legacy, *Soar, Adam, Soar* is told both by his loving priest-turned-dad and by Adam himself, through his many included Facebook posts.

The Thin Book of® SOAR Apr 11 2021 "Very creative and enlightening. I strongly urge everyone to buy the book if you are looking for a new and unique way to conduct strategic planning." Strategy is everybody's job - SOAR is the acronym of a new strategic planning process that is based on discovering and multiplying what the organization does well. SOAR takes the Appreciative Inquiry philosophy and applies it to provide a strategic thinking and dialogue process. The authors have been instrumental in developing this process and will share the concept and case studies to give you the confidence to try SOAR. *Positive Organizational Interventions: Contemporary Theories, Approaches and Applications* Nov 25 2019

Soar High, Dragonfly Jan 20 2022 Dragonflies are some the world's most beautiful (and fascinating!) insects. And one many children can find right in their backyards! With a simple story, perfect for read-alouds, and colorful illustrations, this scientific look at a dragonfly's life-cycle will captivate little entomologists. Informative sidebars are included that let children learn even more about these amazing insects.

The Fight Against Hate Crimes Feb 27 2020 Despite efforts to curtail them, hate crimes are still occurring around the world.

Each day, many people are becoming victims of hate crimes because of the way they look, what they believe in, or who they love. Full-color photographs, discussion questions, and annotated quotes help readers examine the history of hate crimes and discover the heroes who are fighting against hate today. The informational narrative highlights recent events that have led to outcries against hate crimes around the world. Readers will explore ways that societies can help mitigate differences between others and work together to eradicate hate crimes.

Managing Cities at Night Sep 04 2020 This accessible guide provides a stimulating analysis of the governance of the night-time economy in cities for practitioners and newcomers alike. Drawing on a wide range of case studies of after dark activity in cities around the world, it reviews labour, environmental services, healthcare, the role of leaders including night mayors, managers and commissioners, and the influence of both public and private sectors. Offering invaluable insights for the future of night-time governance during the COVID-19 pandemic and beyond, this book deepens our understanding of the benefits, challenges and impacts of a neglected aspect of the economy.
