Red Hood Jan 26 2020 A dark, engrossing, blood-drenched tale of the familiar threats to female power—and one girl’s journey to regain it. Five starred reviews greeted this powerful story from Elana K. Arnold, author of the Printz Honor winner *Damsel*. You are alone in the woods, seen only by the unblinking yellow moon. Your hands are empty. You are nearly naked. And the wolf is angry. Since her grandmother became her caretaker when she was four years old, Bisou Martel has lived a quiet life in a little house in Seattle. She’s kept mostly to herself. She’s been good. But then comes the night of homecoming, when she finds herself running for her life over roots and between trees, a fury of claws and teeth behind her. A wolf attacks. Bisou fights back. A new moon rises. And with it, questions. About the blood in Bisou’s past, and on her hands as she stumbles home. About broken boys and vicious wolves. About girls lost in the woods—frightened, but not alone.

Innovations in Technology Enhanced Learning Aug 25 2022 *Innovations in Technology Enhanced Learning*, edited by Dr Anton Ravindran and Professor Liz Bacon, is a collection of state-of-the-art research papers discussing innovations in the area of technology enhanced learning in adult education. It was inspired by ideas presented at the annual Computer Science Education: Innovation and Technology Conferences, organized and administered by Global Science and Technology Forum (GSTF). Input for the twelve chapters have been sourced from ten geographically dispersed countries from across the world: USA, Spain, Portugal, UK, Bahrain, Saudi Arabia,

Malaysia, Singapore, Iran and Australia, providing a truly international perspective on the field. With rapid developments in the technology and delivery mechanisms including the development of MOOCs (Massive Open Online Courses), online learning is in the process of revolutionising higher education, which makes this book all the more relevant and timely.

Hot Rod Empire Jan 06 2021 *Hot Rod Empire* details Robert E. Petersen's creation of *Hot Rod Magazine* in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up war-years energy and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in post-war America. Robert Petersen, a young SoCal-based photographer and Army Air Corps vet, noted the rapidly growing hot rod scene in and around Los Angeles. His first move was to organize the Los Angeles Hot Rod Exhibition in 1948. His second, and brilliant, move was to launch at the same event the first edition of *Hot Rod* magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. Petersen's magazines were rallying points for all aspects of the car, truck, and motorcycle hobbies, well as nurturing and promoting all aspects from car building to racing to show events. *Hot Rod*, *Motor Trend*, *Car Craft*, *Motorcyclist*, *Off-Road* and *Four Wheel Drive* and some 75 other enthusiast titles dominated magazine racks and provided substantial influence over transportation and numerous other hobbies. *Hot Rod Empire* celebrates the birth and explosive growth of the transportation hobby under Petersen's watch.

Rogers Marvel Architects Jul 20 2019 New York City-based Rogers Marvel Architects has garnered high praise for its distinctive blend of elegance, technical mastery, and civic consciousness. Rogers Marvel Architects, the firm's first monograph, showcases recent and award-winning work, from large-scale public projects such as their contest-winning entry (along with West 8 from Rotterdam) to the redesign of New York City's Governors Island to institution specific buildings such as the recently completed Westchester Reform Temple.

International Plumbing Code 2015 Apr 21 2022 With an emphasis on design and installation for optimum performance, the 2015 INTERNATIONAL PLUMBING CODE SOFT COVER sets forth established requirements for plumbing systems. This important reference guide includes provisions for fixtures, piping, fittings, and devices, as well as design and installation methods for water supply, sanitary drainage, and storm drainage. The 2015 edition of the code includes information on public toilet facilities, as well as water temperature limiting devices, and replacement water heater installation. Using both prescriptive- and performance-related specifications, this code provides comprehensive minimum regulations for a variety of plumbing facilities, facilitating the design and acceptance of new and innovative products, materials, and systems.

Software Solutions for Engineers and Scientists Oct 27 2022 Software requirements for engineering and scientific applications are almost always computational and possess an advanced mathematical component. However, an application that calls for calculating a statistical function, or performs basic differentiation or integration, cannot be easily developed in C++ or most programming languages. In such a case, the engineer or scientist must assume the role of software developer. And even though scientists who take on the role as programmer can sometimes be the originators of major software products, they often waste valuable time developing algorithms that lead to untested and unreliable routines. Software Solutions for Engineers and Scientists addresses the ever present demand for professionals to develop their own software by supplying them with a toolkit and problem-solving resource for developing computational applications. The authors' provide shortcuts to avoid complications, bearing in mind the technical and mathematical ability of their audience. The first section introduces the basic concepts of number systems, storage of numerical data, and machine arithmetic. Chapters on the Intel math unit architecture, data conversions, and the details of math unit programming establish a framework for developing routines in engineering and scientific code. The second part, entitled Application Development, covers the implementation of a C++ program and flowcharting. A tutorial on Windows programming supplies skills that allow readers to create professional quality programs. The section on project engineering examines the software engineering field, describing its common qualities, principles, and paradigms. This is followed by a discussion on the description and specification of software projects, including object-oriented approaches to software development. With the introduction of this volume, professionals can now design effective applications that meet their own field-specific requirements using modern tools and technology.

Manhattan Mayhem Nov 04 2020 From Wall Street to Harlem, the borough of Manhattan is the setting for all-new stories of mystery, murder, and suspense, presented by best-selling author Mary Higgins Clark and featuring an exclusive Jack Reacher story by Lee Child, as well as other takes from top Mystery Writers of America authors. In Lee Child's "The Picture of the Lonely Diner," legendary drifter Jack Reacher interrupts a curious stand-off in the shadow of the Flatiron Building. In Jeffery Deaver's "The Baker of Bleeker Street," an Italian immigrant becomes ensnared in WWII espionage. And in "The Five-Dollar Dress," Mary Higgins Clark unearths the contents of a mysterious hope chest found in an apartment on Union Square. With additional stories from T. Jefferson Parker, S. J. Rozan, Nancy Pickard, Ben H. Winters, Brendan DuBois, Persia Walker, Jon L. Breen, N. J. Ayres, Angela Zeman, Thomas H. Cook, Judith Kelman, Margaret Maron, Justin Scott, and Julie Hyzy, *Manhattan Mayhem* is teeming with red herrings, likely suspects, and thoroughly satisfying mysteries.

The Cape Town Commitment: A Confession of Faith, A Call to Action May 10 2021 The Cape Town Commitment, which arose from The Third Lausanne Congress on World Evangelization (Cape Town, 2010), stands in the historic line of The Lausanne Covenant (1974) and The Manila Manifesto (1989). It has been translated into twenty-five languages and has commanded wide acceptance around the world. The Commitment is set in two parts. Part 1 is a Confession of Faith, crafted in the language of covenantal love. Part 2 is a Call to Action. The local church, mission agencies, special-interest groups, and Christians in the professions are all urged to find their place in its outworking. This annotated bibliography of The Cape Town Commitment, arranged by topic, has been compiled by specialists in a range of fields. As such, it is the first bibliography of its kind. Arranged in sections for graduate-level teaching Equally useful for research students

Psychology May 30 2020 This title is available in a new edition Success is in the balance. In the Second Canadian Edition of Psychology, John Santrock and John Mitterer present the perfect balance of big ideas vs. supporting detail, breadth vs. depth, and research vs. application, all framed by a pedagogical system that effectively guides the student through the key concepts of psychology. New learning goals launch each chapter and serve as the organizing mechanism for the text and supporting materials, focusing students' attention on the big ideas of psychology. Rich applications and current research from Canada, the United States, and other countries support the big ideas so that students emerge with an understanding of the key concepts, not a collection of details. Santrock and Mitterer provide both you and your students with the balance you need to succeed!

[River in Ruin](#) Oct 03 2020 The thin ribbon of the Carmel River is just thirty-six miles long and no wider in most places than a child can throw a stone. It is the primary water supply for the ever-burgeoning presence of tourists, agriculture, and industry on California's Monterey Peninsula. It is also one of the top ten endangered rivers in North America. The river's story, which dramatically unfolds in this book, is an epic tale of exploitation, development, and often unwitting degradation reaching back to the first appearance of Europeans on the pristine peninsula. *River in Ruin* is a precise weaving of water history—local and larger—and a natural, social, and environmental narrative of the Carmel River. Ray A. March traces the river's misuse from 1879 and details how ever more successful promotions of Monterey demanded more and more water, leading to one dam after another. As a result the river was disastrously depleted, cluttered with concrete rubble, and inhospitable to the fish prized by visitors and residents alike. March's book is a cautionary tale about squandering precious water resources—about the ultimate cost of a ruined river and the slim but urgent hope of bringing it back to life.

Rusch to Glory Feb 07 2021 Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of

Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch to Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.
