The Blue Bedspread Jul 04 2020 A midnight phone call awakens a man to inform him that his sister has died in childbirth. He is told he must keep the orphaned baby girl overnight, until her new, adopting parents can collect her. Over the course of that hot night in Calcutta, the man hurriedly writes stories to the baby sleeping on a blue bedspread in the next room: stories of the family she was born into, stories of the mother she will never know. Painting half-remembered scenes, he flits between past and present, recounting tales of the shared childhood of a boy and his sister who muffled their fears in the blueness of that very same bedspread. As the hours pass, the man gradually divulges a layered and transfixing confession of the darkest of family secrets. Described by John Fowles as "remarkable, almost a coming-of-age of the Indian novel," this powerful, penetrating debut by a young New Delhi journalist has already been recognized as an international literary event. In prose that is breathtaking and precise, Raj Kamal Jha discovers the hidden violence and twisted eroticism of an exotic, overcrowded old city. Unlike the India captured in the exotic prose of Salman Rushdie and Arundhati Roy, Jha writes in a spare, straightforward style that has prompted comparisons to American realists like Raymond Carver and Don DeLillo. The Blue Bedspread is a searingly honest story about the love and hope that can survive in the midst of family violence. It is a first novel of extraordinary power and humanity.

Social Entrepreneurship in India Mar 24 2022 While the phrase 'Social Entrepreneurship' sounds oxymoronic, it certainly is not an unfamiliar concept in the Indian market and society. India is a hub of social entrepreneurship and has a long history of doing business for social causes. The business giants like Amul, Aravind Eyecare, Lijjat, Sulabh Shalchay, etc. have been solving social problems through entrepreneurial strategies since ages. Inspired by tech giants like Uber or Paytm, aspiring entrepreneurs are looking for problems that can be solved through new business ideas. The emergence of social entrepreneurship as an identifiable sector and as a discipline/field of study has become a social phenomenon. The book starts with tracing the historical roots and the milestone which have led to the recent emergence of social entrepreneurship as a recognized sector of practice and study. Rather than fitting 'social entrepreneurs' in a box, it identifies the qualities and patterns of successful social entrepreneurs, both as a person and how they function. Sifting through these diverse approaches to solve social problems, it proposes five broad but distinct types of Indian social entrepreneurs. It describes how social entrepreneurs, like any other entrepreneur, identify opportunities and gaps in the 'market', develop innovative solutions to address those problems, and use entrepreneurial strategies to build and scale their ventures. It also discusses the key problems of access to basic social goods (e.g., education, healthcare, credit, etc.) by the poor segment of Indian society, the challenges in servicing this segment and successful entrepreneurial models which social entrepreneurs use to impact their lives. As scaling the impact is an essential requirement for the social entrepreneurs to make a difference in the society and lives of people, the book also discusses three different ways in which social entrepreneurs scale, and the prerequisites and challenges in scaling.

Bhujia Barons Jul 16 2021 How a family-run business from humble Bikaner transformed Haldiram into a global, much-loved brand In the early twentieth century, a young man, Ganga Bhishan Agarwal, aka Haldiram, gained a reputation for making the best bhujia in town. Fast-forward a century and the Haldiram's empire has revenue much greater than that of McDonald's and Domino's combined. In Bhujia Barons, Pavitra Kumar tells the riveting story of the Agarwal family in its entirety—a feat never managed

before. It begins in dusty, benign Bikaner and traces the rise and rise of this home-grown label, now one of the most-recognized Indian brands in the world. The Haldiram's story is not an average business story—it's chock-full of family drama, with court cases, jealousy-fuelled regional expansion, a decades-old trademark battle, and a closely guarded family secret of the famous bhujia. Fast-paced and captivating, this book provides a delicious look into family business dynamics and the Indian way of doing business.

The \$100 Startup Sep 25 2019 Lead a life of adventure, meaning and purpose—and earn a good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project* Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he's never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who've learned how to turn what they do into a gateway to self-fulfillment. It's all about finding the intersection between your “expertise”—even if you don't consider it such—and what other people will pay for. You don't need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris's key principles: If you're good at one thing, you're probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it's up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way.

The Art of Execution May 14 2021 Over seven years, 45 of the world's top investors were given between \$25 and \$150m to invest by fund manager Lee Freeman-Shor. His instructions were simple. There was only one rule. They could only invest in their ten best ideas to make money. It seemed like a foolproof plan to make a lot of money. What could possibly go wrong? These were some of the greatest minds at work in the markets today - from top European hedge fund managers to Wall Street legends. But most of the investors' great ideas actually lost money. Shockingly, a toss of a coin would have been a better method of choosing whether or not to invest in a stock. Nevertheless, despite being wrong most of the time, many of these investors still ended up making a lot of money. How could they be wrong most of the time and still be profitable? The answer lay in their hidden habits of execution, which until now have only been guessed at from the outside world. This book lays bare those secret habits for the first time, explaining them with real-life data, case studies and stories taken from Freeman-Shor's unique position of managing these investors on a day-to-day basis. A riveting read for investors of every level, this book shows you exactly what to do and what not to do when your big idea is losing or winning - and demonstrates conclusively why the most important thing about investing is always the art of execution.

Monday Mornings Dec 09 2020 Every time surgeons operate, they're betting their skills are better than the brain tumor, the faulty heart valve, the fractured femur. Sometimes, they're wrong. At Chelsea General, surgeons answer for bad outcomes at the Morbidity and Mortality conference, known as M & M. This extraordinary peek behind the curtain into what is considered the most secretive meeting in all of medicine is the back drop for the entire book. *Monday Mornings*, by Dr. Sanjay Gupta, follows the lives of five surgeons at Chelsea General as they push the limits of their abilities and confront their personal and professional failings, often in front of their peers at M & M. It is on Monday mornings that reflection and introspection occurs, usually in private. It is *Monday Mornings* that provides a unique look at the real method in which surgeons learn - through their mistakes. It is *Monday Mornings* when, if you're lucky, you have a chance at redemption.
