[Care Without Coverage](#) Jun 10 2021 Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

Fachbegriffe Versicherungswesen / Dictionary of Insurance Terms Mar 07 2021 Versicherungen sind ein Finanzinstrument, nicht mehr und nicht weniger. Dieses Finanzinstrument spielt eine entscheidende Rolle bei der persönlichen und der geschäftlichen Finanzplanung. Im persönlichen Bereich übersteigen die Beiträge, die eine Einzelperson im Laufe ihres Lebens für Versicherungen ausgeben, alle anderen Ausgaben, ein schließlich derer beim Kauf eines Hauses. Jeder diese Aussage betreffende Zweifel kann durch Aufaddieren der jährlichen Prämienzahlungen für Lebensversicherung, Krankerversicherung, Rentenversicherung, Sozialversicherung, private Rentenversicherung, Keogh Plan, Kfz-Versicherung, Hausbesitzer- oder Mieterversicherung, Berufshaftpflicht- und Globalhaftpflichtversicherung beseitigt werden. Einzelpersonen machen diese Ausgaben jedoch gewöhnlich ohne hinreichende Kenntnis der erworbenen Versicherungsdienstleistung. Die gleiche Situation herrscht im wesentlichen in der Geschäftswelt vor. In den meisten Fällen übersteigen die Beiträge zu den verschiedenen Versicherungen andere geschäftliche Betriebsausgaben. Die Beiträge zu den freiwillig 45 Cent pro Dollar Gehalt ligen Sozialleistungen werden in den USA auf 30 bis eines Beschäftigten geschätzt. Wenn man diese Ausgaben zu den Kosten anderer geschäftsbedingter Ausgaben, wie der Berufsunfallversicherung, durch Versicherungen finanzierte Kauf-/Verkaufsvereinbarungen, Schluß selbstenversicherung, Unternehmenssachversicherung, Unternehmenshaftpflichtversicherung und andere Sonderversicherungen für Unternehmen, hinzufügt, so können die Gesamtkosten überwältigend sein. Und die Entscheidungen über den Abschluß von Unternehmensversicherungen werden erstaunlicherweise oft ohne hinreichende Grundkenntnisse über die verschiedenen erhältlichen Versicherungsdienstleistungen getroffen.

Elements of Life Insurance Sep 13 2021 Excerpt from Elements of Life Insurance: Third Editions With Definitions of Life Insurance Terms The demand for this little book calls for a new edition, and the changes in life insurance as practiced in the United States which have taken place during a decade past have rendered it necessary to make this a revised edition as well. The surprising thing is that the principles of sound life insurance are so well established and so universal that even the great, and indeed startling, departures in recent years from the former methods result in but few alterations of the text - and these relatively unimportant - and in yet fewer additions. An earnest attempt has been made to make the book yet simpler and more explicit than in the previous editions, and to exclude all that is mere opinion. A glossary has been added, giving the definitions of life insurance terms which are in common use, with references to pages of the book which discuss the subject more fully. In revising the book, its employment as a text-book in schools and colleges has been kept in mind, and especial efforts have been put forth to make it accurate and denitive throughout. Transparency in Insurance Contract Law Oct 02 2020 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law. It consists of chapters written by leaders in the respective field, who address transparency in a range of civil and common law jurisdictions, along with overview chapters. Each chapter reviews the transparency principles applicable in the jurisdiction discussed. Whether expressly or impliedly, all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers, although there is little consensus on the scope of that duty. Disputed matters in this regard include: whether it is satisfied by honest answers to express questions, or whether there is a spontaneous duty of disclosure; whether facts relating to the insured's character, as opposed to the nature of the risk itself, are to be presented to the insurers; the role of insurance intermediaries in the placement process; and the remedy for breach of duty. Transparency is, however, a much wider concept. Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps (such as conditions precedent, average clauses and excess provisions), but there are a range of different approaches. Some jurisdictions have adopted a "soft law" approach, using codes of practice for pre-contract disclosure, while other jurisdictions employ the rather nebulous duty of (utmost) good faith. Leaving aside placement, transparency is also demanded after the policy has been accepted. The insured is required to be transparent during the claims process. There is less consistency in national legislation regarding the implementation of transparency by insurers in the context of handling claims.
