Dream It! Do It! Jun 14 2021 Marty Sklar was hired by The Walt Disney Company after his junior year at UCLA, and began his Disney career at Disneyland in July 1955, the month before the park opened. He spent his first decade at Disney as "the kid," the very youngest of the creative team Walt had assembled at WED Enterprises. But despite his youth, his talents propelled him forward into substantial responsibility: he became Walt's speech writer, penned Walt's and Roy's messages in the company's annual report, composed most of the publicity and marketing materials for Disneyland, conceived presentations for the U.S. government, devised initiatives to obtain sponsors to enable new Disneyland developments, and wrote a twenty-four-minute film expressing Walt's philosophy for the Walt Disney World project and Epcot. He was Walt's literary right-hand man. Over the next forty years, Marty Sklar rose to become president and principal creative executive of Walt Disney Imagineering, and he devoted his entire career to creating, enhancing, and expanding Walt's magical empire. This beautifully written and enlightening book is Marty's own retelling of his epic Disney journey, a grand adventure that lasted over half a century.

[The I-search Paper](#) Jun 26 2022 This revised and retitled edition of Searching Writing includes two additional I-Search papers, one by a teacher, and a new chapter entitled "The Larger Context," which shows how the I Search concept can work throughout the whole curriculum in school and college. As with the first edition, The I-Search Paper is more than just a textbook; it's a new form of instructional help -- a context book -- that shows students what authority is in matters of learning and invites them to join the author and teacher in the educational movement called "Writing to Learn." To put this book in the hands of all the students in the course is not only to help them carry out an I-Search but to introduce them in a delightful way to the resources and tools of intellectual inquiry -- but one that never forgets the emotional or physical side of human activity. This is a rare textbook that treats students as partners in learning. It shows what it is to take charge of one's own learning and suggests that this move is one that productive people keep making throughout their lives.

The Making of Knowledge in Composition Aug 24 2019 In a style that combines scholarly care with remarkable readability, North examines the development of the field of composition in a way it has not been examined before. Rather than focusing on what people claim to know about teaching writing, he concerns himself primarily with how they claim to know it. Eight groups of knowledge-makers are treated in separate chapters: Practitioners, Historians, Philosophers, Critics, Experimentalists, Clinicians, Formalists, and Ethnographers. Each of these chapters orients the reader by tracing the mode's first uses in the field and listing its best known and most important adherents; then goes on to explain how the mode of inquiry works, illustrating key points with painstaking analysis of well-known studies. In his final three chapters, North turns from these individual modes to consider the field as a whole: How have these different ways of making knowledge come together? What is Composition now, and what is it likely to become?

From the Wreck Dec 09 2020 Winner of the Aurealis Award for Best Science Fiction Novel and nominated for the Miles Franklin Award. A novel of strange and wonderful imagination, imbued with beauty and feeling, existential loneliness and a deep awareness of the interdependence of all life. When George Hills was pulled from the wreck of the steamship Admella, he carried with him memories of a disaster that claimed the lives of almost every other soul on board. Almost every other soul. Because as he clung onto the wreck, George wasn't alone: someone else - or something else - kept George warm and bound him to life. Why didn't he die, as so many others did, half-submerged in the freezing Southern Ocean? And what happened to his fellow survivor, the woman who seemed to vanish into thin air? George will live out the rest of his life obsessed with finding the answers to these questions. He will marry, father children, but never quite let go of the feeling that something else came out of the ocean that day, something that has been watching him ever since. The question of what this creature might want from him - his life? his first-born? to simply return home? - will pursue him, and call him back to the ocean once again. Blending genres, perspectives and worlds, Jane Rawson's *From the Wreck* is a chilling and tender story about how fiercely we cling to life, and how no one can survive on their own. "The power of this singular novel lies in Rawson's ability to meld seemingly disparate narrative elements into a convincing whole that movingly explores themes of loss, loneliness and guilt." - *The Guardian* "This strange story of love and loneliness, which explores how we all long to belong, is simply wonderful." - *Daily Mail* "Striking...What Rawson has ingeniously forged with *From the Wreck* is something approaching an old-fashioned historical yarn spliced with Cronenbergian body horror." - *The Sydney Morning Herald* "Absorbing...Full of deep currents and lurking fears." - Adrian Tchaikovsky, Arthur C. Clarke Award-winning author of *The Children of Time*

The Irrelevant English Teacher Jul 24 2019 "When I argue that we should not let our English classes degenerate into bull sessions, whether about large metaphysical generalities or about war, civil rights, pollution, our national priorities, etc., and that we should not grade themes and term papers on the basis of their moral, social, or political commitment, it is not because I think such matters are unimportant but because I know that the problems they force upon us will never be solved by people whose muddled language prevents their thinking coherently and consecutively. Black English is demoralized language, an idiom of fettered minds, the shuffling speech of slavery. It served its bad purposes well. It cannot serve the purposes of free men and women. Those who would perpetuate it are romanticists clinging to corruption. Joy is a value we undervalue at our political peril. Once we have experienced joy we are less satisfied with dullness; once we have joined in the joyful play of a lively mind, we are much less easily impressed by the stencils and stereotypes of a Presidential commercial." -- Excerpt.

Letters for the Living Jan 28 2020 This book takes up issues of violence in the lives of college students and looks for possibilities of teaching composition as an act of peace making. Through a variety of writings, the book illustrates students' experiences on the city streets of New York and in the small mining and steel towns of western Pennsylvania. One section of the book reports on a project that linked one author/educator's (Hurlbert) research writing class and the other author/educator's (Blitz) freshman composition II class. In the semester-long project, the classes researched and wrote about their own neighborhoods and the neighborhoods of their interstate partners. The book states that these two groups of students taught each other about the places in which they live and the ways in which they live there, and in many cases, what each learned about the other was "shocking." It also shares with the reader letters in which the two author/educators reflect upon their work as teachers, in an effort to understand the personal and cultural implications of what students write and say. (Contains 101 references.) (NKA).

The Odes of Pindar Jan 10 2021 This collection of the extant odes by the Greek poet Pindar presents a comprehensive look at the odes that define his poetic career. Along with Sappho, Pindar is one of the esteemed nine lyric poets of Ancient Greece. These extant odes are also representative of Greece's cultural and artistic trends at the beginning of the dynamic classical period, between the 5th and 4th century BC. Primarily in the mode of his famed victory odes, or "epikinia", Pindar elevates the legends of various athletic victors. From charioteers to wrestlers, these poems are frank yet powerful accounts of Ancient Greece's most harrowing Olympic events. Pindar's poetic style is particularly striking, often employing grandiosity unheard in his contemporaries' verse. His elegant phrasing and exacting imagery make these odes delightfully arresting. These games provide an opportunity for mortal men to be elevated to divine status; and it is these odes that so effortlessly set these transformations into action. This edition is printed on premium acid-free paper and follows the translation of Ernest Myers.
