Growing in Love and Wisdom Jan 22 2022 Although raised Roman Catholic, Susan Stabile was ordained as a Tibetan Buddhist nun and devoted 20 years of her life to practicing Buddhism before returning to Catholicism in 2001. In *Growing in Love and Wisdom*, she draws on this unique dual perspective to explore the value of interreligious dialogue, the spiritual dynamics that operate across faith traditions, and how Buddhist meditation practices can deepen Christian prayer. She begins by examining the values and principles shared by the two faiths and shows that both traditions seek to effect a fundamental transformation in the lives of believers. Both stress the need for experiences with deep emotional resonance that goes beyond the level of concepts to touch the heart. The center of the book offers 15 Tibetan Buddhist contemplative practices, adapted for Christian use. Stabile provides clear instructions on how to do these meditations and helpful commentary on each, explaining its purpose and the relation between the Buddhist original and her Christian adaptation of it. Throughout, she highlights the many remarkably close parallels between the teachings of Jesus and the Buddha. The meditations offered in this unusual book will be extremely useful to thoughtful Christians, to those responsible for giving spiritual direction, and also to Buddhist sympathizers who will be intrigued and pleased to see familiar contemplations handled so skillfully by a former Buddhist practitioner who has gratefully learned so much from her former religion and now introduces the riches of that tradition to her fellow Christians.

Wisdom in Love May 14 2021 In this historically informed work in moral psychology, Rick Anthony Furtak develops a conceptual account of the emotions that addresses the conventional idea that reason and emotion stand in sharp opposition. Furtak begins with a critical examination of the ancient Stoic position that emotions should be avoided by rational human beings. He argues that, on the contrary, emotions ought to be understood as embodying a kind of authentic insight, which enables us to attain a meaningful and truthful way of seeing the world. Furtak's positive alternative to Stoicism draws heavily on the writings of Soren Kierkegaard, particularly *Either/Or* and *Works of Love*, while also

The outcome of this inquiry into the possibility of reliable emotion is an account of the ideal state in which a person could trust himself or herself to be rational in being passionate. *Wisdom in Love* makes an original contribution to the philosophy of the emotions and provides a new and compelling interpretation of Kierkegaard's work as a whole.

Christian Wisdom Jun 22 2019 What is Christian wisdom for living in the twenty-first century? Where is it to be found? How can it be learnt? In the midst of diverse religions and worldviews and the demands and complexities of our world, David Ford explores a Christian way of uniting love of wisdom with wisdom in love. Core elements are the 'discernment of cries', the love of God for God's sake, interpretation of scripture, and the shaping of desire in faith. Case studies deal with inter-faith wisdom among Jews, Christians and Muslims, universities as centres of wisdom as well as knowledge and know-how and the challenge of learning disabilities. Throughout, there is an attempt to do justice to the premodern, modern and postmodern while grappling with scripture, tradition and the cries of the world today. Ford opens up the rich resources of Christianity in engaging with the issues and urgencies of contemporary life.

Love Wisdom Truth Oct 26 2019 This is a spiritual book comprised of quotations about Love, Wisdom, and Truth that I have collected from lectures given by the master Beinsa Douno/Peter Deunov. Without exaggeration this book contains valuable uplifting Divine ideas, principles, rules and laws which we all should put into practice. Beinsa Douno teaches that all people are brothers and sisters (since we come from one and the same Father-God) and should live as such. "This teaching is not mine, it is God's teaching. It is a teaching of Love, brotherhood and sisterhood of absolute freedom in which everyone respects the rights of the others. And the powerful are ready to be servants of the little and weak." Beinsa Douno. This book together with the books "Prayers and Spiritual Formulas" and "The Might of Love" are available for free, just send me an email and I will email them to you. Socrates' Daimonic Art Jul 04 2020 Despite increasing interest in the figure of Socrates and in love in ancient Greece, no recent monograph studies these topics in all four of Plato's dialogues on love and friendship. This book provides important new insights into these subjects by examining Plato's characterization of Socrates in Symposium, Phaedrus, Lysis and the often neglected Alcibiades I. It focuses on the specific ways in which the philosopher searches for wisdom together with his young interlocutors, using an art that is 'erotic', not in a narrowly sexual sense, but because it shares characteristics attributed to the daimon Eros in Symposium. In all four dialogues, Socrates' art enables him, like Eros, to search for the beauty and wisdom he recognizes that he lacks and to help others seek these same objects of erôs. Belfiore examines the dialogues as both philosophical and dramatic works, and considers many connections with Greek culture, including poetry and theater.

The Love of Wisdom Dec 21 2021 From the dawn of Western thought to the present day, The Love of Wisdom tells the story of philosophy as something intensely theological, both in its insights and its wrong turns. The book will be invaluable for any student of theology or intellectual history, and for anyone who wants to see the intellectual cogency of the Christian faith at its best. The intellectual tradition of the Church emerges clearly from this book as one of the glories of the Christian inheritance. Andrew Davison argues that Christian thinkers will be more faithful to Christian teaching, not less, if they pay attention to philosophy. Our thinking is always philosophical, since we cannot think without categories or assumption. Our philosophy may as well, therefore, be good philosophy. By bringing our philosophy out into the open we can bring them under theological judgement. Clear and articulate, this book provides the philosophical background to Christian theology down the ages, and examines the intellectual climate of our own times.

Buddha's Brain Jun 14 2021 Jesus, Moses, Mohammed, Gandhi, and the Buddha all had brains built essentially like anyone else's, yet they were able to harness their thoughts and shape their patterns of thinking in ways that changed history. With new breakthroughs in modern neuroscience and the wisdom of thousands of years of contemplative practice, it is possible for us to shape our own thoughts in a similar way for greater happiness, love, compassion, and wisdom. Buddha's Brain joins the forces of modern neuroscience with ancient contemplative teachings to show readers how they can work toward greater emotional well-being, healthier relationships, more effective actions, and deepened religious and spiritual understanding. This book will explain how the core elements of both psychological well-being and religious or spiritual life-virtue, mindfulness, and wisdom-are based in the core functions of the brain: regulating, learning, and valuing. Readers will also learn practical ways to apply this information, as the book offers many exercises they can do to tap the unused potential of the brain and rewire it over time for greater peace and well-being.
