International Conference on Material Science and Material Engineering [MSME2014] Jan 10 2021 The MSME2014 is hosted by Advanced Information Science Research Center (AISRC) and is sponsored by DEStech Publications, Inc., University of East Asia, University of Mysore and Reitaku University. MSME2014 aims to provide an excellent international academic forum for sharing knowledge and results in theory, methodology and applications in the aspects of material science and material engineering. This MSME2014 proceedings tends to collect the up-to-date, comprehensive and worldwide state-of-art knowledge on material science and material engineering, including material composites, ceramic, metal alloy material, polymer material, building materials, environmental friendly material, material performance, etc. All of accepted papers were subjected to strict peer-reviewing by 2-4 expert referees. The papers have been selected for this volume because of quality and the relevance to the conference. We hope this book will not only provide the readers a broad overview of the latest research results, but also provide the readers a valuable summary and reference in these fields.

Becoming a Migrant Worker in Nepal May 02 2020 High-profile events such as the 2022 FIFA World Cup in Qatar have made one thing abundantly clear: Much of today's economic growth would be unthinkable without the low-wage employment of migrant workers. But which cultural, economic, and political infrastructures in the »source« countries make these types of migration possible in the first place? Based on multi-sensory ethnographic research in Nepal, Hannah Uprety retraces the practices of recruitment and instruction that - step by step - transform Nepali labor into an internationally marketable commodity. In doing so, she uncovers a migration regime that effectively turns local men and women into »migrant workers« before they even leave the country.

Non-Judicial Remedies and EU Administration Jul 24 2019 The increasing number of executive tasks assigned to EU institutions and agencies has resulted in a greater demand for justice that can no longer be satisfied by the courts alone. This has led to the development of a wide range of administrative remedies that have become a central part of the EU administrative justice system. This book examines the important theoretical and practical issues raised by this phenomenon. The work focuses on five administrative remedies: internal review; administrative appeals to the Commission against decisions of executive and decentralised agencies; independent administrative review of decisions of decentralised agencies; complaints to the EU Ombudsman; and complaints to the EU Data Protection Supervisor. The research rests on the idea that there is a complex, and at times ambivalent, relationship between administrative remedies and the varying degrees of autonomy of EU institutions and bodies, offices and agencies. The work draws on legislation, internal rules of executive bodies, administrative practices and specific case law, data and statistics. This empirical approach helps to unveil the true dynamics present within these procedures

and demonstrates that whilst administrative remedies may improve the relationship between individuals and the EU administration, their interplay with administrative autonomy might lead to a risk of fragmentation and incoherence in the EU administrative justice system.

Cooperation and Conflict between Europe and Russia Jan 28 2020 When thinking about relations between Europe and Russia, International Relations scholars focus on why conflict has replaced cooperation. The "geostrategic debate" excludes the possible coexistence of cooperation and conflict. Tracking the evolution of conflict and cooperation patterns in three zones of contact (Estonia, Kaliningrad, and Moldova) between 1991 and 2016, this edited volume argues that, although the standard narrative remains compelling, local patterns of cooperation and conflict are partly autonomous from the geostrategic level. To account for the coexistence of cooperation and conflict, the first chapter elaborates a theoretical proposition distinguishing fluid, rigid, and disputed symbolic boundaries, which have different impacts on the ground. The subsequent chapters address distinct dimensions of Euro-Russian relations, paying attention to local reality in Estonia, Moldova, Ukraine, or Kaliningrad, different sectors from energy to peoples' movement, and across institutional contexts such as the EU and NATO. They confirm that the standard narrative holds in most cases, but also that Euro-Russian relations vary in crucial ways according to the interests and representations of actors immersed in specific geopolitical fields. Despite a deterioration of geostrategic relations between Europe and Russia since the end of the Soviet Union, *Cooperation and Conflict between Europe and Russia* explores the intriguing coexistence of conflict and cooperation at the local level and across sectors and institutions. The chapters in this book were originally published as a special issue of the journal *East European Politics*.

The European Union's Broader Neighbourhood Feb 29 2020 Over the past decade the European Union (EU) has gradually developed the European Neighbourhood Policy (ENP) with its neighbours. At the same time, the 'neighbours of the EU's neighbours' have presented new challenges. This book addresses the EU's broader neighbourhood, comprising of the ENP countries and the neighbours of its neighbours. With specific focus on Saharan Africa, the Middle East and Central Asia, it discusses trans-regional policy issues that arise from the EU's relations with regions beyond the ENP. Based on an interdisciplinary, policy-oriented approach, this volume explores major political, legal, security and socio-economic challenges and identifies opportunities for cooperation across the EU's broader neighbourhood. This book will be of interest to students, experts and scholars interested in EU affairs and politics, international relations, EU and international law, diplomacy and area studies.

Empire of Fear Jun 02 2020 In June 2014 Islamic State launched an astonishing blitzkrieg which saw them seize control of an area in the Middle East the size of Britain. The news was soon filled with their relentless acts of savagery, yet nobody seemed to know who they were or where they'd come from. Now BBC reporter Andrew Hosken delivers the inside story on Islamic State. Through extensive first-hand reporting, Hosken builds a comprehensive picture of IS, their brutal ideology and exterminationist methods. Equally compelling and horrifying, Empire of Fear reveals how Islamic State came to be, explores how they might be defeated and asks a frightening question - if they were brought down, could we stop another group emerging to replace them?

Arab Development Outlook Jun 14 2021 The Arab region is in crisis and it is easy to succumb to pessimism about its future. This report, however, embraces a vision of hope: one that illustrates the many ways in which the region can act to ensure its future security and prosperity. It envisages a day when authoritarianism, occupation, foreign domination and all forms of discrimination end. A vision of human development and economic prosperity implies that citizens are free to voice their opinions and practice their beliefs without fear, the rule of law applies equally to all, and the basic necessities for a decent life are affordable even for the least fortunate. It calls for choices to be made in order to lay the foundations of an inclusive society, so as not to slip further into a spiral of deepening violence, instability and recession that would undermine development for generations to come. This report

presents a vision of improved governance, advanced social justice and human well-being, transformed economies, and intensified regional integration; in short, an Arab region at peace, stable and prosperous.

Think Tanks Dec 29 2019 The growth of think tanks—with uniquely Asian characteristics Policy research institutes—better known as think tanks—are long established and well known in Western countries but have developed only in recent years in much of the rest of the world. Globalization is partly responsible for the new growth in think tanks, since few issues are totally domestic and governments and citizens increasingly understand the need for well-informed policy advice. Think tanks have become especially important in many Asian nations over the past decade, coinciding with their rise to new prominence in international affairs. Asia's major players—the People's Republic of China, India, Japan, the Republic of Korea, Singapore—and more recently countries in Central Asia like Kazakhstan now have major think tanks. These institutions have become the go-to organizations for proposals and policy advice on key economic, security, social and environmental issues. This book by a noted expert in the field traces the growing influence of these policy actors in Asia, places the trend in historical context, and explores how the region's countries have fostered the growth of think tanks with uniquely Asian characteristics.

The Oxford Handbook of the Economics of Central Banking Aug 24 2019 The economic influence of central banks has received ever more attention given their centrality during the financial crises that led to the Great Recession, strains in the European Union, and the challenges to the Euro. The Oxford Handbook of the Economics of Central Banking reflects the state of the art in the theory and practice and covers a wide range of topics that will provide insight to students, scholars, and practitioners. As an up to date reference of the current and potential challenges faced by central banks in the conduct of monetary policy and in the search for the maintenance of financial system stability, this Oxford Handbook covers a wide range of essential issues. The first section provides insights into central bank governance, the differing degrees of central bank independence, and the internal dynamics of their decision making. The next section focuses on questions of whether central banks can ameliorate fiscal burdens, various strategies to affect monetary policy, and how the global financial crisis affected the relationship between the traditional focus on inflation targeting and unconventional policy instruments such as quantitative easing (QE), foreign exchange market interventions, negative interest rates, and forward guidance. The next two sections turn to central bank communications and management of expectations and then mechanisms of policy transmission. The fifth part explores the challenges of recent developments in the economy and debates about the roles central banks should play, focusing on micro- and macro-prudential arguments. The implications of recent developments for policy modeling are covered in the last section. The breadth and depth enhances understanding of the challenges and opportunities facing central banks.
