Inside the Helmet Aug 27 2022 Following a magical season that ended in Super Bowl glory, one of the NFL's biggest stars delivers a no-holds-barred, hardhitting hitting account of life in the league. Michael Strahan is one of the NFL's most talented players, and he is also one of the game's most vocal personalities. In *Inside the Helmet*, Strahan exposes all of the pressure, pain, and glory of life in the NFL, venturing into territory no previous football author has had the nerve to tread. Bringing the reader right into the middle of the action, Strahan recounts exhilarating victories and reveals the hair-raising details of the ruthless grit required for every win. He gives an honest account of the brutality on the field and the myriad injuries from which he continues to suffer. He describes the relationships among teammates (including an account of his well publicized feuding with Tiki Barber), the practical jokes players use to preserve their sanity and the violent blow-ups that occur when the pressure gets too intense, and the challenges of taking orders from head coach Tom Coughlin and his squadron of assistant coaches. Strahan also writes about dealing with the relentless media coverage, rabid and demanding fans, and the struggle to live up to a multimillion-dollar salary. Finally, in two new chapters for the paperback edition, Strahan writes about the ups and downs of a truly sensational 2007 season that saw the Giants overcome the odds to win the Super Bowl. For the millions of rabid NFL fans, *Inside the Helmet* is an all-access pass into the huddle, the locker room, and the minds of the warriors on the field.

[The Blue Helmet](#) Feb 27 2020 Lee wants to be a Tarantula – a member of the biggest, most powerful gang in his neighbourhood. But when his initiation goes wrong and the police catch him robbing an auto supply store, Lee's father sends him to live with his aunt in New Toronto. Lee feels more lost than ever. His mother's death from cancer, and his father's constant absence working two jobs mean he has practically had to raise himself. But though he initially resists his Aunt Reena and the customers of Reena's Unique Café – a ragtag collection of the unusual, the unkempt and the deeply eccentric – Lee gradually learns to open himself up to his new surroundings. When Lee strikes up an unlikely friendship he is suddenly confronted by the ravages of violence, and is forced to face the consequences of his own aggression. *The Blue Helmet* is a powerful portrait of one young man's struggle to come into his own, and the peace that comes from the achievement.

It Started with a Helmet Jul 02 2020 This is the amazing, true story of Gerald Sanford, a former New York City police officer and FDNY firefighter who retired and moved to Naples, Florida. Retirement didn't take, and he found himself working at North Naples Fire Control and Rescue District, which is how he stumbled on an early 1900s antique fire helmet. He instantly knew the helmet was from New York City. By an amazing coincidence, Sanford presented the fire helmet back to the FDNY firehouse in the Bronx the day before the Sept. 11, 2001, terrorist attacks. With the city in ruins, Sanford volunteered to serve the FDNY in one of his former roles-press secretary. In this memoir, he recalls volunteering after 9/11 as well as his earlier years working for the NYPD and FDNY, including his observations of political figures such as Mayor Ed Koch, Mayor David Dinkins, Mayor Rudy Giuliani, and others. Join Sanford as he shares an incredible story about Sept. 11 and how an antique leather helmet led two fire departments to forge a lasting bond.

[Helmet For My Pillow \[Illustrated Edition\]](#) Apr 23 2022 Includes over 220 photos, maps and plans following Robert "Lucky" Leckie's Pacific War with the 1st Marine Division "Here is one of

the most riveting first-person accounts ever to come out of World War II. Robert Leckie enlisted in the United States Marine Corps in January 1942, shortly after the Japanese attack on Pearl Harbor. In *Helmet for My Pillow* we follow his odyssey, from basic training on Parris Island, South Carolina, all the way to the raging battles in the Pacific, where some of the war's fiercest fighting took place. Recounting his service with the 1st Marine Division and the brutal action on Guadalcanal, New Britain, and Peleliu, Leckie spares no detail of the horrors and sacrifices of war, painting an unvarnished portrait of how real warriors are made, fight, and often die in the defense of their country. From the live-for-today rowdiness of marines on leave to the terrors of jungle warfare against an enemy determined to fight to the last man, Leckie describes what war is really like when victory can only be measured inch by bloody inch. Woven throughout are Leckie's hard-won, eloquent, and thoroughly unsentimental meditations on the meaning of war and why we fight. Unparalleled in its immediacy and accuracy, *Helmet for My Pillow* will leave no reader untouched. This is a book that brings you as close to the mud, the blood, and the experience of war as it is safe to come."-Print Ed.

Land of Blue Helmets Dec 19 2021 Born in 1945, the United Nations came to life in the Arab world. It was there that the UN dealt with early diplomatic challenges that helped shape its institutions such as peacekeeping and political mediation. It was also there that the UN found itself trapped in, and sometimes part of, confounding geopolitical tensions in key international conflicts in the Cold War and post-Cold War periods, such as hostilities between Palestine and Iraq and between Libya and Syria. Much has changed over the past seven decades, but what has not changed is the central role played by the UN. This book's claim is that the UN is a constant site of struggle in the Arab world and equally that the Arab world serves as a location for the UN to define itself against the shifting politics of its age. Looking at the UN from the standpoint of the Arab world, this volume collects some of the finest scholars and practitioners writing about the potential and the problems of a UN that is framed by both the promises of its Charter and the contradictions of its member states. This is a landmark book—a close and informed study of the UN in the region that taught the organization how to do its many jobs.

Collecting Military Headgear Nov 25 2019 This is the ultimate reference to military headgear that appears today on the collector's market, from the Comb Morion to the Picklehaube, and from the Closed helmet to the Bicorn hat with particular reference to rare Napoleonic headgear. Collectors, dealers, and auctioneers from Japan, Belgium, the United States of America, Italy, The United Kingdom, Germany, Malta and Sweden have collaborated to compile this unique collection of photographs of exceptionally rare hats. These include extremely rare and ancient helmets, expensive sixteenth century open-faced helmets, Zischagges, Burgonets, unique eighteenth century headdress, French shakos from the First Empire, neo-classical helmets from the Napoleonic wars, early spiked helmets from the Crimean war period, Oriental helmets, and First World War headgear. The book is lavishly illustrated with close-up views that assist collectors in identifying aging characteristics. It also places collecting in the context of history by discussing the employment of Internet auctions, replicas, forgeries, and prices are also covered.

The United Nations Motorcycle Helmet Study Feb 09 2021 This study examines issues, progress and challenges in efforts to improve the safety and wellbeing of motorcycle riders through the use of approved motorcycle helmets. The growth in motorcycles is accompanied by an increase in serious and fatal accidents. Evidence shows that once internationally harmonized helmet regulations, such as the UN Regulation No. 22 type-approval system for helmets, are in place and laws on helmet wearing are enforced, these trends tend to reverse. In examining the relationship of income growth and national motorcycle fleet expansion, this study argues the socio-economic case for introduction of helmet regulations and their enforcement by delivering a benefit-cost analysis of taking such legislative actions.

Increased bicycle helmet use in Sweden: needs and possibilities Dec 27 2019 Background: From the perspective of what is called "vision zero" in Sweden, fatalities and injuries among bicyclists are unacceptable. Despite that, bicyclists constitutes approximately one third of all road user inpatients in Swedish hospitals, which is about the same proportion seen for drivers and passengers of motor vehicles. There are too many bicycle-related head injuries, but the risk of such traumas could be reduced considerably by the use of helmets. Bicycle helmet wearing can be increased by voluntary means, for instance by long-term community-based helmet promotion programs. However, the best effect has been achieved by combining promotion with a compulsory helmet law for all bicyclists, as has been done in Australia, New Zealand, and North America Aim: The general aim of the research underlying this dissertation was to provide further information about the need for increased bicycle helmet use in Sweden, and to determine what measures can lead to more widespread helmet wearing. The four papers included addressed two main questions: (1) What is the need for increased helmet wearing among different categories of bicyclists in Sweden? (2) Is a non-compulsory local bicycle helmet law a realistic alternative to a mandatory helmet law for all bicyclists? Materials and methods: Observational studies of helmet use by bicyclists in Sweden were conducted once a year (average n = 37,031/year) during the period 1988-2002 (paper I). The general trend in observed helmet wearing in different categories of bicyclists was analyzed by linear regression, and the results were used to predict future trends in helmet wearing. Three studies (papers II-IV) were also performed to evaluate a non-compulsory local bicycle helmet "law" in Motala municipality during the study period 1995 to 1998 (papers II-IV). This law was introduced in 1996 and applies specifically to school children (ages 6-12 years), although the intention is to increase helmet use among all bicyclists. Adoption of the law was accompanied by helmet promotion activities. In one of the studies in the evaluation, written material and in-depth interviews (n=8) were analyzed qualitatively to describe the process and structure of development of the Motala helmet law. The other two studies used a quasi-experimental design to assess the impact of the helmet law: one comprised annual observations of helmet wearing among bicyclists in Motala (average n=2,458/year) and control areas (average n=17,818/year); and the other included questionnaire data on attitudes, beliefs, and self-reported behavior of school children in Motala (n=1,277) and control areas (n=2,198). The average response rate was 72.8%. Results and discussion: There was a significant upward trend in helmet use in all categories of bicyclists from 1988 to 2002. Helmet wearing increased from 20% to 35% among children(? 10 years) riding bikes in their leisure time, from 5% to 33% among school children, and from 2% to 14% in adults. Total average helmet use rose from 4% to 17%. However, during the last five years of the study period (1998-2002), there was no upward trend in helmet wearing for any of the categories of bicyclists. If the historic trend in helmet use continues, the average wearing rate will be about 30% by the year 2010. The Motala helmet law was dogged by several problems, mainly during the initiation phase, and some of them led to poor rooting of the law in the schools and indistinct roles and responsibilities of the municipal actors. Despite that, the law initially led to a significant increase in helmet wearing among the primary target group (school children), from a pre-law level of 65% to about 76% six months post-law, whereas thereafter the wearing rate gradually decreased and was at the pre-law level 2 ½ years after the law was adopted. Nonetheless, a weak but significant effect on adult bicyclists remained: the pre-law level of about 2% rose to about 8% at the end of the study period. Only about 10% of bicyclists on bike paths in Motala wore helmets 2 ½ years post-law. The questionnaire study showed one significant effect on school children in Motala two years post-law, namely, a stronger intention to ride bicycles if a national compulsory helmet law was introduced. There was, however, no significant long-term influence on children's attitudes or beliefs about helmet wearing, which agrees with the results of the observational study. General conclusions: It is indeed necessary to increase bicycle helmet wearing in Sweden. Both the current average rate of helmet use and the rate predicted for the near future are far from the goal of 80% that was officially proposed by several years ago. Previous research has shown that, to achieve substantial and sustained bicycle helmet use, it is necessary to use helmet promotion in combination with a national helmet law that is compulsory and applies to all bicyclists. The present evaluation of the non-compulsory local helmet law in Motala indicated that this type of initiative is not a powerful alternative to a mandatory national helmet law. Nevertheless, much has been learned from the initiation and implementation of this local action.

Helmet for My Pillow Jan 08 2021 "One hell of a book! The real stuff that proves the U.S. Marines are the greatest fighting men on earth!" Leon Uris Robert Leckie signed up for service with the United States Marines on January 5, 1942. Wake Island had fallen and America was still reeling from the tragedy of Pearl Harbor. This vivid and personal account of one marine's journey through the course of the war in the Pacific in World War Two. Leckie provides vivid, and at times humorous, details of his training in South Carolina, through to being assigned to first terrifying duties as a fighting marine. He was thrust into the heat of battle at Guadalcanal before seeing action across many islands of the Pacific until he was eventually wounded and evacuated from the island of Peleliu. Yet this fascinating autobiography is not simply about Leckie's fighting life over the duration of the war as it also records the camaraderie of his fellow soldiers, the adventures that he enjoyed during his time off service in Melbourne, Australia, along with the day to day life of a normal marine. "Helmet for My Pillow is a grand and epic prose poem. Robert Leckie's theme is the purely human experience of war in the Pacific, written in the graceful imagery of a human being who -- somehow -- survived." Tom Hanks This work is essential reading for anyone interested in uncovering the voice of a true marine who saw some of the bloodiest battles of World War Two. Along with E. B. Sledge's *With the Old Breed: At Peleliu and Okinawa* this book formed the basis for the HBO miniseries *The Pacific*. Robert Leckie was an American author and historian. His service with the 1st Marine Division in World War Two as a machine gunner and a scout greatly influenced his later work. *Helmet for my Pillow* was first published in 1957 and Leckie passed away in 2001.

How to Live Dangerously Mar 10 2021 Afraid of flying? Forty percent of Americans are. Yet you'd have to fly every day for the next 26,000 years to assure yourself of dying in a crash. A leisurely canoe ride is more than 100 times deadlier. Think city streets are unsafe? You're more likely to come to harm in your own home, where every year you stand a 1 in 650 chance of being injured by your bed, mattress, or pillows—and each year 800 Americans die in accidents involving soft furnishings. We live in a world governed by fear, where packets of peanuts "may contain nuts" and children must be ever on the alert to "stranger danger." And yet, life expectancy has never been higher. Crime rates have plunged. Even unintentional injuries are down. So if we're so safe, why are we so afraid? *How to Live Dangerously* is a hilarious, straight-talking look at the things that terrify us. It considers life's real risks, not to mention the often ridiculous methods we've contrived to keep ourselves "safe." It encourages you to ignore fearmongers and embrace a new kind of freedom, in which we all worry a little less—and live a whole lot more.

The Helmet Of Horror Mar 30 2020 When Ariadne helped Theseus escape the Minotaur's labyrinth with the aid of a ball of thread, she led the way for the bewildered victims of a twenty-first century minotaur. Trapped in an endless maze of Internet chatrooms, a group of mystified strangers find themselves assigned obscure aliases and commanded by the Helmet of Horror, the Minotaur himself. As they fumble their way back to reality through a mesmerising world of abundant information but little knowledge, we are forced to wonder - can technology itself be anything more than a myth?

Last Legionary Jul 22 2019 In AD 400 Roman rule in Britain was collapsing as the thinly stretched empire was besieged on all sides. In 'The Last Legionary', Paul Elliot explores all aspects of Late Roman military life, from recruitment to weaponry, marriage to wages, warfare to religion. It explores the world of the Roman soldier through the eyes of one man, posted to a British

garrison at the edge of the empire, and follows the soldier's life through training and battle, marriage and business dealings, finally following him south as he leaves Britain for good in defence of Rome. When the legionary finally escapes the worst posting in the Roman Empire, it is only to join what effectively became a death march over the Alps, without food or shelter. To know what it was like to face the chanted battle cry, the charge and slashing axes of the Goths, and to understand why the order 'march out!' was so terrifying, read Paul Elliott's mesmerising, meticulously accurate account.

Life in a Helmet Sep 28 2022 Bored with his life and Christianity, Tommi Keranen decides to set off to South America from Canada aboard his trusted motorcycle, the mighty Republic of Vancouver Island. Along the way, he meets various characters and encounters a variety of situations, both humorous and frightening. All along the way, he learns that God is truly in control.

The Bus Jul 26 2022 He was one of pro football's most beloved and respected stars, admired not only by NFL fans and his own teammates, but by his opponents as well. Super Bowl champion; six time Pro Bowler; NFL Comeback Player of the Year; NFL Man of the Year; fifth all-time leading rusher in the NFL; future Hall of Famer; now NBC Sports commentator. You may think you know Jerome Bettis, but you don't. In *The Bus*, Jerome Bettis tells his full, unvarnished story for the first time--from his sometimes troubled childhood in inner-city Detroit to his difficult transition at Notre Dame, to a pro coach who almost caused him to quit the game, to a trade for the ages that resulted in ten glorious seasons with the Pittsburgh Steelers. As a chunky child wearing glasses, Jerome's only sports-related aspiration was to become a professional bowler. But growing up in one of the roughest neighborhoods in Detroit, he eventually found his escape on the high school football field, thanks to the devotion of hard-working parents, a concerned coach, and his prodigious talent. He arrived at Notre Dame as one of the nation's best prep players, but despite his incredible performances, he never stopped worrying that he would somehow blow his chance to make good. Drafted and later discarded by the Los Angeles Rams, it was in the football-obsessed city of Pittsburgh that Jerome found his home and became a legend. *The Bus* captures the sweetness and honesty of Bettis, but also details the jaw-dropping, violent nature of the game he loved, the mind-boggling injuries he endured, and the cut-throat NFL business tactics he overcame and later mastered. Through it all, Jerome was also a loving son, an adoring father, and the ultimate teammate and mentor. *The Bus* not only takes you under the helmet, but inside the huddle, the locker room, the practice field, the negotiating table, the owner's office, and the Super Bowl sideline. You'll learn how Bettis became *The Bus*, how he helped engineer the greatest trade in Steelers history, how he almost cost Pittsburgh a conference championship, and how sweet it was to win—finally—one for the thumb.
