*Welcome to the State of Kuwait* Nov 05 2020 Based on real-life stories from an international school in Kuwait, which chart the survival of teachers from the thrown-in-at-the-deep-end start to the I-can't-believe-we-made-it finish. Outlandish comedy abounds as the teachers laugh and lose it, through a mine field of barriers to logic, and challenges to plain common sense. The book illuminates the startling excesses of the oil-money rich as they balance a past of poverty with an extreme pot of gold from the end of the rainbow. It shows Kuwait as a microcosm reflecting the more global issues surrounding waste, ecology, using more than we need, and consumerism gone mad. The stories reveal the pros and cons of teaching on the international circuit and how the teachers adapt to an alien land of dust, sexual and racial inequality and an oppressive political regime, both inside and outside school. Resilience, fortitude and a hefty dose of humour gets the teachers through to the end with a cheer and a wave.

**Far Eastern Economic Review** May 31 2020 Asia's premier business magazine. The magazine reports on politics, business, economics, technology and social and cultural issues throughout Asia, with a particular emphasis on both Southeast Asia and China.

**The Fabric of Peace in Africa** May 23 2022 Africa has experienced dozens of conflicts over a variety of issues during the past two decades. Responding to these conflicts requires concerted action to manage the crises – the violence, the political discord, and the humanitarian consequences of prolonged fighting. It is also necessary to address the long-term social and economic impacts of conflict, to rebuild communities, societies and states that have been torn apart. To accomplish this requires the involvement of institutions and groups rarely considered in formal official African conflict management activities: schools, universities, religious institutions, media, commercial enterprises, legal institutions, civil society groups, youth, women and migrants. These groups and organizations have an important role to play in building a sense of identity, fairness,

shared norms and cohesion between state and society – all critical components of the fabric of peace and security in Africa. This volume brings together leading experts from Africa, Europe and North America to examine these critical social institutions and groups, and consider how they can either improve or impede peaceful conflict resolution. The overarching questions that are explored by the authors are: What constitutes social cohesion and resilience in the face of conflict? What are the threats to cohesion and resilience? And how can the positive elements be fostered and by whom? The second of two volumes on African conflict management capacity by the editors, *The Fabric of Peace in Africa: Looking beyond the State* opens new doors of understanding for students, scholars and practitioners focused on strengthening peace in Africa; the first volume, *Minding the Gap: African Conflict Management in a Time of change*, focused on the role of mediation and peacekeeping in managing violence and political crises.

It captures decisive moments in both histories, from the creation of Pakistan to its tragic dismemberment and the impact these life-changing events had on the family. For my Country Jul 01 2020 ‘When I joined the struggle as a 13-year-old boy in Soweto, I would never have imagined that one day I would blow the whistle on a special kind of corruption that was destroying the party and the values I had been fighting for all my life.’ In 2010, government spokesperson Themba Maseko was called to the Gupta family’s Saxonwold compound and asked by Ajay Gupta to divert the government’s entire advertising budget to the family’s media company. When Maseko refused to do so, he was removed from his position and forced to leave the public service. The life of this once-proud civil servant would never be the same again. Maseko, whose activism was forged in the Soweto uprising of 1976, is a product of the struggle, and has always been unfailingly loyal to the principles of the ANC. In 2016, when the party called on members with evidence of wrongdoing by the Guptas to step forward, Maseko was the only one to do so. For this courageous act of whistleblowing, he was ostracised, slandered and even threatened. As a former senior state official, Maseko also offers a rare insider’s view of the presidencies of Thabo Mbeki and Jacob Zuma and of the inner workings of government. Compelling and revelatory, For My Country shows what it takes to stand up for one’s principles and defy the most powerful man in the country.

**High-Stakes Testing in Education** Feb 26 2020 High-stakes educational testing is a global phenomenon which is increasing in both scale and importance. Assessments are high-stakes when there are serious consequences for one or more stakeholders. Historically, tests have largely been used for selection or for providing a 'licence to practise', making them high-stakes for the test takers. Testing is now also used for the purposes of improving standards of teaching and learning and of holding schools accountable for their students' results. These tests then become high-stakes for teachers

and schools, especially when they have to meet externally imposed targets. More recent has been the emergence of international comparative testing, which has become high-stakes for governments and policy makers as their education systems are judged in relation to the performances of other countries. In this book we draw on research which examines each of these uses of high-stakes testing. The articles evaluate the impact of such assessments and explore the issues of value and fairness which they raise. To underline the international appeal of high-stakes testing the studies are drawn from Australia, Africa, the Caribbean, Europe, former Soviet republics and North America. Collectively they illustrate the power of high-stakes assessment in shaping, for better or for worse, policy making and schooling. This book was originally published as a special issue of *Assessment in Education: Principles, Policy & Practice*.

Rebuilding Public Confidence in Educational Assessment Jul 25 2022 Educational assessment is important. But in the twenty-first century it is easy to feel that schooling and other phases of education are shaped entirely by certain assessments, and that assessment is only about exam results. The idea that test grades can accurately describe the aims and outcomes of education is unfair and reductive. Yet it is a pervasive and persuasive discourse. This book is about such discourses - the stories we tell each other - and how they impact public trust and confidence in educational assessment. It explains the roots and nature of assessment discourses, and proposes a restructuring of the debates in order to rebuild public confidence. It aims to challenge dominant assessment discourses and demands a more nuanced, informed debate about what happens in and beyond schools, and how this influences public thinking. Questioning the status quo needs buy-in from policymakers, teachers, parents and students, and from the broader public: from journalists, you, me, our friends and our children. Using examples from international settings to explore the nature of trust in assessment discourses, Rebuilding Public Confidence in Educational Assessment shows how these discourses can be reframed so that all aspects of the assessment system - policymaking, school planning, home practice with students - can be undertaken with confidence.

*Top Secret Business Humor* Jan 19 2022 The modern workplace environment has always been a source of comedy from decades, but very few people are willing to openly admit it. Many executives think humor and laughter are unproductive, unprofessional, and being serious and gloomy is the only way to spend their work life. This is why most modern workplaces have become extremely humorless, artificial and stressful. But we don't have to be humorless to run a business. Actually, the ability to laugh at yourself and your work are the qualities of great and successful leaders. Having a sense of humor can lighten up difficult situations and creatively solve many personal and business problems. You must be able to think in atrocious, ridiculous, and illogical terms. Modern management consultants call this 'thinking out of the box', but I call it old fashioned creativity and humor that has existed from centuries. *Top Secret Business Humor* is a collection of witty satire related to corporate stuff like processes, performance, change, strategy, customer satisfaction, meetings, quality, and other workplace dramas we endure for several hours a day. This book is all about imagining the creative and wackier side of working in an office to rejuvenate and brighten your day. The chapters are all fictitious and can be taken with a pinch of salt, though the paper used may not be edible. The author makes no representations or warranties of any kind with respect to the accuracy, usability or usefulness of the contents. So get serious about injecting some humor in your life.
