King Stephen Jul 24 2019 This compelling new biography provides the most authoritative picture yet of King Stephen, whose reign (1135-1154), with its "nineteen long winters" of civil war, made his name synonymous with failed leadership. After years of work on the sources, Edmund King shows with rare clarity the strengths and weaknesses of the monarch. Keeping Stephen at the forefront of his account, the author also chronicles the activities of key family members and associates whose loyal support sustained Stephen's kingship. In 1135 the popular Stephen was elected king against the claims of the empress Matilda and her sons. But by 1153, Stephen had lost control over Normandy and other important regions, England had lost prestige, and the weakened king was forced to cede his family's right to succession. A rich narrative covering the drama of a tumultuous reign, this book focuses well-deserved attention on a king who lost control of his destiny.

The Reign of King Stephen Feb 08 2021 At last: an authoritative, up to date account of the troubled reign of King Stephen, by a leading scholar of the Anglo-Norman world. David Crouch covers every aspect of the period - the king and the empress, the aristocracy, the Church, government and the nation at large. He also looks at the wider dimensions of the story, in Scotland, Wales, Normandy and elsewhere. The result (weaving its discussions around a vigorous narrative core) is a work of major scholarship. A must for specialist and amateur medievalists alike.

Companions Without Vows Nov 07 2020 Companions Without Vows is the first detailed study of the companionate relationship among women in eighteenth-century England--a type of relationship so prevalent that it was nearly institutionalized. Drawing extensively upon primary documents and fictional

narratives, Betty Rizzo describes the socioeconomic conditions that forced women to take on or to become companions and examines a number of actual companionate relationships. Several factors fostered such relationships. Husbands and wives of the period lived largely separate social lives, yet decorum prohibited genteel women from attending engagements unaccompanied. Also, women of position insisted on having social consultants and confidantes. Filling this need were the many well-born young women without sufficient funds to live independently. Because family money and property were concentrated in the hands of eldest sons, these women frequently had to seek the protection of female benefactors for whom they performed unpaid, nonmenial tasks, such as providing a hand at cards or simply offering pleasant company. The companionate relationship between women could assume many forms, Rizzo notes. It was often analogous to marriage, with one partner dominant and the other subservient, while some women experimented in establishing partnerships that were truly egalitarian. Rizzo explores these various types of relationships both in real life and in fiction, noting that much of the period's discourse about women's relationships can be seen as a tacit commentary on marriage. Provocative and engagingly written, this authoritative work casts new light on women's attempts to deal with a patriarchal power structure and offers new insight into eighteenth-century social history.

England and the Avignon Popes Jun 14 2021 "Much has been written about the complex relationship between England and the papacy in the 14th century, yet the form (rather than the content) of the diplomatic intercourse between these two protagonists has not hitherto been examined in detail. Drawing on a wide range of unpublished sources, Pluger explores the techniques of communication employed by the Crown in its dealings with Clement VI (1342-52) and Innocent VI (1352-62). Methodologies of social and cultural history and of International Relations are brought to bear on the analysis of the dialogue between Westminster and Avignon, resulting in a more complete picture of 14th-century Anglo-papal relations in particular and of medieval diplomatic practice in general."

The Language and Imagery of Coma and Brain Injury Aug 29 2022 What occurs within coma? What does the coma patient experience? How does the patient perceive the world outside of coma, if at all? The simple answer to these questions is that we don't know. Yet the sheer volume of literary and media texts would have us believe that we do. Examining representations of coma and brain injury across a variety of texts, this book investigates common tropes and linguistic devices used to portray the medical condition of coma, giving rise to universal mythologies and misconceptions in the public domain. Matthew Colbeck looks at how these texts represent, or fail to represent, long-term brain injury, drawing on narratives of coma survivors that have been produced and curated through writing groups he has run over the last 10 years. Discussing a diverse range of cultural works, including novels by Irvine Welsh, Stephen King, Tom McCarthy and Douglas Coupland, as well as film and media texts such as *The Sopranos*, *Kill Bill*, *Coma* and *The Walking Dead*, Colbeck provides an explanation for our fascination with coma. With a proliferation of misleading stories of survival in the media and in literature, this book explores the potential impact these have upon our own understanding of coma and its victims.

La neuvième vie de Louis Drax Feb 2022 "Demandez un peu à ma maman si c'est drôle d'avoir un fils qui collectionne les accidents. Elle vous dira que non. On n'arrive pas à dormir, parce qu'on se demande comment ça va finir. On voit le danger partout et on se dit Il faut le protéger. Mais parfois on ne peut pas." Louis, neuf ans, enfant précoce et perturbé, victime d'accidents à répétition, est tombé d'une falaise lors d'une promenade en famille. Sa chute était-elle vraiment un accident ? Déclaré cliniquement mort, il ressuscite à la morgue d'un hôpital français. Personne ne comprend ce qui a pu se passer, jusqu'à ce que Louis commence à raconter les événements...

Gloria did all sorts of things she wouldn't normally do - evil things, some of them - because she might be dead tomorrow. Or someone might. Now, fifty years on, it's payback time. In her old folks' home, Gloria is forced to remember the real truth about her and Ron, and confront the secret at the heart of her dramatic home front story. But cats have only nine lives, and Louis has used up eight, one for every year.. When he falls off a cliff during a picnic, the accident seems almost predestined. Louis miraculously survives-but the family has been shattered. Louis' father has vanished, his mother is in shock, and Louis lies in a deep coma from which he may never emerge. In a renowned coma clinic, a specialist tries to coax Louis back to consciousness. But the boy defies medical logic, startling the doctor out of his safe preconceptions, and drawing him inexorably into the dark heart of Louis' buried world. Only Louis holds the key to the mystery surrounding his fall-and he can't communicate.
