EU Securities and Financial Markets Regulation Feb 08 2021 Previous editions published under title: EC securities regulation.

Communities in Action Aug 26 2022 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

National Solutions to Trans-Border Problems? Oct 28 2022 Triggered by the North American Free Trade Agreement (NAFTA), Canada, the United States and Mexico redefined their public policies to facilitate the regionalization of transactions. However, this volume addresses the institutional gaps that still remain focusing mainly on the cross-border governance of security aspects. It gathers interdisciplinary contributions of specialists working on continental issues within Canada, the United States and Mexico and highlights the transnational dimension of certain issues still managed under national-framed policies. Furthermore, it explores the possibilities and constraints for moving public policy into new cross-border governance strategies. Divided in three parts, the first part assesses what is at stake in cross-border governance issues and whether the integrative trend in the region will be maintained or stalled in the years to come. The second part explores the growing scope of security problems interconnected with borders, migration, energy and drug trafficking across the region. It highlights how Mexico and Canada are responding or adapting their policy choices to a continental security approach framed by the US after the terrorist attacks of September 11, and to the major concerns of the Obama administration. The third part focuses on the governance of territorial borders and bilateral affairs, i.e. Mexico-US and Canada-Mexico relations.

Central Asia 2050 Oct 24 2019 An ancient land, Central Asia occupies a geostrategically critical place at the heart of Eurasia, bridging the vast continental space that is Europe and Asia. Central Asia today faces great opportunities as well as daunting challenges. The principal message of this book is that the region has significant potential and a unique opportunity to accelerate its economic and social development. A major lesson for the future from Central Asians' past is that they thrived most when they were open to the world and to each other in terms of trade, investment, and bold thought, with a commitment to intellectual and religious pluralism and tolerance. The book articulates an aspirational vision for 2050. Under this vision, the region will have achieved widespread prosperity such that by 2050, a vast majority of Central Asians will be middle class with commensurate income and quality of life. Social, institutional, and governance indicators will have improved in tandem and reached at least the level of South Korea and Central Europe today. No doubt, Central Asia will face many challenges: as individual countries and as a region. However, challenges also represent opportunities. The book identifies several of these in specific areas, including the efficient development of the energy and agriculture sectors; developing modern manufacturing and service industries that are well integrated into global supply chains; fostering inclusive human development; mitigating and adapting to climate change; integrating with global and regional markets; and improving governance and institutions. A particular challenge, cutting across all others, is how Central Asia manages its increasingly scarce and critical water resources. Achieving the ambitious aspirational Vision 2050 is plausible, though by no means pre-ordained. Many of the policy and institutional reforms noted in this book will not come easy and take time to design and implement. Regional leaders, individually and collectively, will need to pursue them with a sense of commitment and urgency.

Banking, Finance, and Accounting: Concepts, Methodologies, Tools, and Applications Sep 15 2021 With the global economy still in recovery, it is more important than ever for individuals and organizations to be aware of their money and its potential for both depreciation and growth. Banking, Finance, and Accounting: Concepts, Methodologies, Tools, and Applications investigates recent advances and undertakings in the financial industry to better equip all members of the world economy with the tools and insights needed to weather any shift in the economic climate. With chapters on topics ranging from investment portfolios to credit unions, this multi-volume reference source will serve as a crucial resource for managers, investors, brokers, and all others within the banking industry.

Recognition of Foreign Bank Resolution Actions Mar 09 2021 This timely book offers a comprehensive study of the mechanism that gives effect to foreign bank resolution actions. In particular, it focuses on how the legal framework for the recognition of foreign bank resolution actions should be structured and proposes detailed legal principles on which effective frameworks should be based.

Managing School Attendance May 23 2022 Teachers and governments all agree that if you wish to raise educational standards then it's imperative to improve school attendance, and yet an average of around ten per cent of secondary pupils are missing school on a daily basis. Despite governments around the globe trying to address this situation, any improvements have been negligible and improvements in school attendance have been stubbornly hard to achieve. As an internationally recognised expert on this topic, Professor Ken Reid offers workable, practical solutions to help schools improve attendance and to reduce non-attendance and truancy at government level, school and local authority level, individual pupil level and at the family level. Underpinned by the very latest research, but expanded upon with an accessible, practitioner focus, the issues covered by this topical text include: The causes of non-attendance and truancy Successful interventions and the evidence from research Reflections on the attempts to find national solutions Implementing home-school solutions An agenda for the future Supporting throughout with case-studies and workable solutions to the most demanding of situations, this book will be essential reading for head teachers, deputy head teachers, teachers and any educational professional eager to raise standards for all.

Education, Capitalism and the Global Crisis Jun 24 2022 Education, Capitalism and the Global Crisis focuses on Andrew Gamble's book *The Spectre at the Feast* and its analysis of the background to, conduct of, and possible consequences and opportunities brought about by, the current global economic crisis. The views expressed represent a range of responses to Gamble's analysis and examination of the crisis, both in different locations and from different perspectives. They reflect upon the broader social, political and even emotional dimensions of what is taking place as well as trying to understand the true nature of the crisis. What is key is how the state sets about 'managing' this crisis. The authors seek to answer a wide range of pertinent questions, such as: to what degree will the state continue to balance between economic and fiscal management as against the needs of the weak and vulnerable? What should be and what is the role of state welfarism in a time of recession? How will different nation states respond to this crisis? What is the role of education policy in these complicated times? What is the role of the education state? This book was originally published as a special issue of the *Journal of Education Policy*.

Educating About Social Issues in the 20th and 21st Centuries Vol. 3 Aug 02 2020 EDUCATING ABOUT SOCIAL ISSUES IN THE 20th and 21st Centuries: A Critical Annotated Bibliography, Volume 3 is the third volume in a series that addresses an eclectic host of issues germane to teaching and learning about social issues at the secondary level of schooling, ranging over roughly a one hundred year period (between 1915 and 2013). Volume 3 specifically addresses how an examination of social issues can be incorporated into the extant curriculum. Experts in various areas each contribute a chapter in the book. Each chapter is comprised of a critical essay and an annotated bibliography of key works germane to the specific focus of the chapter.

Practical Solutions for Serious Problems in Standards-Based Grading Nov 05 2020 Implement standards-based grading practices that accurately and equitably report student achievement! Standards-based education poses a variety of challenges for grading and reporting practices. This edited volume examines critical issues in standards-based grading and provides specific suggestions for improving policies and practices at the school and classroom levels. The chapters: Describe traditional school practices that inhibit the implementation of standards-based grading Address how teachers can assign fair and accurate grades to English language learners and students with special needs Examine legal issues related to grading Discuss why report card grades and large-scale assessment scores may vary Offer communication strategies with parents

The Eurozone Crisis and the Transformation of EU Governance Oct 16 2021 Research on European governance is central to understanding both the process of European integration and its external influence as a laboratory for multilateralism. This volume focuses on the impact of the recent Eurozone crisis and its far-reaching implications for European governance both inside and outside the EU borders. Ideal for classroom use, this volume covers: I. European modes of governance: concepts, recent trends and international implications with chapters by Lefkofridi & Schmitter, Cini, Borrs and Radaelli. II. The transformation of European economic governance with contributions by Fabbri, Stoffaës, Collignon, Eising, Rasch and Rozbicka. III. The transformation of European social policy governance with Goetschy, Hemerijck, de la Porte and Heins. IV. The international implications of the transformation of EU governance highlighted by Rodrigues, Xiarchogiannopoulou and Mügge.

Strengthening Forensic Science in the United States Sep 27 2022 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Film, Television and Video in Europe 2009 Dec 06 2020

Twin Peaks for Europe: State-of-the-Art Financial Supervisory Consolidation Oct 04 2020 The book addresses the truly interdisciplinary and highly controversial subject of international financial regulation and supervision, which has been at the center of academic, political, and public attention since the start of the current economic and financial crisis. Drawing on international financial regulatory and supervisory experience and in line with the European Monetary Union's gradual transformation into a Genuine Economic and Monetary Union, it proposes the transformation of the European financial supervisory framework into a hybrid twin-peaks model to create the previously missing necessary legal foundation for the adoption of the so-called Group Support Regime (GSR). The latter is a relatively simple and transparent capital management tool for (re)insurance groups operating in a parent-subsidiary structure proposed by the European Commission under the new Solvency II insurance supervisory framework, which despite lengthy consideration was eventually rejected by Member States.

The Hidden Crisis Jul 01 2020 When wars break out, international attention and media reporting invariably focus on the most immediate images of human suffering. Yet behind these images is a hidden crisis. Across many of the world's poorest countries, armed conflict is destroying not just school infrastructure, but the hopes and ambitions of generations of children. The hidden crisis: Armed conflict and education documents the devastating effects of armed conflict on education. It examines the widespread human rights abuses keeping children out of school. The Report challenges an international aid system that is failing conflict-affected states, with damaging consequences for education. It warns that schools are often used to transmit intolerance, prejudice and social injustice. This ninth edition of the Education for All Global Monitoring Report calls on governments to demonstrate greater resolve in combating the culture of impunity surrounding attacks on schoolchildren and schools. It sets out an agenda for fixing the International aid architecture. And it identifies strategies for strengthening the role of education in peacebuilding. The Report includes statistical indicators on all levels of education in more than 200 countries and territories. It serves as an authoritative reference for education policy-makers, development specialists, researchers and the media

The Carrier's Liability for Deck Cargo Mar 21 2022 This book deals with the carrier's liability for deck cargo in the Nordic countries and England as state parties of the Hague-Visby Rules. The comparative method serves to illustrate two widely differing methods of dealing with, first, the exclusion of certain deck cargo from the scope of the Hague-Visby Rules and, second, where not excluded, the Rules failure to include a special deck cargo liability regime. Various solutions similar to the English or Nordic approach, or a combination of the two, have also been adopted in a large number of other jurisdictions. Taking into consideration the massive quantities of cargo that are carried on deck today, the subject is more topical than ever. The complexity of the problem stems from the way in which the deck has, over the years, gradually become a common place to stow cargo. When the Hague Rules were introduced in 1924, deck stowage was an absolute exception due to the great risks involved. As such, the topic must first be looked at in the context of the shipping realities in which the Hague Rules were drafted and then in terms of today's shipping realities. The comparative analysis leading up to the author's conclusions and general remarks for future legislation consists of two parts, the first dealing with the situations in which the carrier is permitted to stow cargo on deck, and the second with the carrier's liability for deck cargo where he has stowed cargo on deck with, or as the case may be, without such permission.

Curriculum, Personal Narrative and the Social Future Dec 18 2021 Recent writing on education and social change, and a growing number of new governmental initiatives across Western societies have proceeded in denial or ignorance of the personal missions and biographical trajectories of key public sector personnel. This book stems from an underpinning belief that we have to understand the personal biographical if we are to understand the fate of social and political initiatives. In education a pattern has emerged in many countries around the world. Each new government enshrines targets and tests to ensure that teachers at the frontline delivery are 'more accountable'. Whilst this often provides evidence of symbolic action to the electorate or professional audiences, the evidence at the level of service delivery is often far less impressive. Targets, tests and tables may win wide support from the public, but there are often negligible or even contradictory effects at the point of delivery, enforced by the ignorance or denial of personal missions and biographical mandates. This book locates most of its analysis and discussion at the point of culture clash between centralised dictates, and individual and collective life missions. Whilst the early part of the book considers a range of issues related to school curriculum, the focus on the biographical and life narrative becomes increasingly important as the analysis proceeds. Curriculum, Personal Narrative and the Social Future will be of key interest to practising teachers, educational researchers and students on teacher training courses, postgraduate courses and doctoral courses.

American Democracy in Context May 31 2020 Discover what makes American democracy unique and how its government impacts your life American Democracy in Context provides a combined comparative and historical approach to inspire students to better understand American government and become active citizens. Bestselling authors Maltese, Pika, and Shively explain the distinctive features of how Americans practice democracy—how they vote, translate election results into representation of interests, make policy decisions, enforce laws and maintain justice—and how those practices differ from other democracies throughout the world. The emphasis is always on the American political system, but the search for understanding encourages students to examine how the American system has developed over time (historical context) and how it compares with similar practices in other democracies (comparative context). This combined approach motivates students to understand why politics is relevant to their everyday lives and how they can affect changes and make a difference. Hear author John Maltese talk about key features in the book. Watch now! This title is accompanied by a complete teaching and learning package. Contact your SAGE representative to request a demo. Digital Option / Courseware SAGE Vantage is an intuitive digital platform that delivers this text's content and course materials in a learning experience that offers auto-graded assignments and interactive multimedia tools, all carefully designed to ignite student engagement and drive critical thinking. The Europeanization of Gender Equality Policies Apr 29 2020 A discursive-sociological approach to the Europeanization of gender and other equality policies. Using largely unpublished empirical data covering twenty-nine European countries this book adopts a pluralistic perspective to explore the complex and often divergent gender and other equality policy outputs of Europeanization.

Rethinking Neo-Institutional Statebuilding Jan 07 2021 Cover -- Half Title -- Title Page -- Copyright Page -- Dedication -- Table of Contents -- Acknowledgements -- Abbreviations -- Introduction -- 1 Expansive intervention as neo-institutional learning: introducing the knowledge paradox -- 2 The demise of liberal-universalism: reality as critique -- 3 Mexico's new sovereignty: 'shared responsibility' and resilience in the Merida Initiative -- 4 The neo-institutional search for civil society -- 5 Neo-institutional capacity-building: disassembling international policy -- Conclusion -- Index

European Homeland Security Apr 10 2021 This book examines the processes and factors shaping the development of homeland security policies in the European Union (EU), within the wider context of European integration. The EU functions in a complex security environment, with perceived security threats from Islamist terrorists, migration and border security issues, and environmental problems. In order to deal with these, the EU has

undertaken a number of actions, including the adoption of the European Security Strategy in 2003, the Information Management Strategy of 2009, and the Internal Security Strategy of 2010. However, despite such efforts to achieve a more concerted European action in the field of security, there are still many questions to be answered about whether the European approach is really a strategic one. European Homeland Security addresses two major debates in relation to the development of homeland security in Europe. First, it reflects on the absence of 'homeland security' in European political debate and its potential consequences. Second, it examines the significant policy developments in the EU that suggest the influence of homeland security ideas, notably through policy transfer from the United States. The book will be of great interest to students of European security and EU politics, terrorism and counter-terrorism, security studies and IR.

The Flight of Icarus Nov 24 2019 This book provides a detailed analysis of the institutional transformations brought about by the financial crisis, focusing on the institution-building course of Europe and the Constitution-bending course in several Member States. It discusses the seemingly contradictory interplay between national and European institutions and the law resulting from the crisis, arguing that the anti-crisis exceptionality constitutes the matrix of the new normality of the reformed European economic governance. The author carries out a critical analysis of the new economic governance and its case-law with regular reference to relevant political episodes, key economic figures and to the hitherto lax modes and rules. The author also offers deep insights into the Greek adjustment programme and the crisis-related Greek and Portuguese constitutional case-law, presented in comparison with the German and French case-law. The book concludes with a critical overview of the profound mutations in the role of national Constitutions, instigated by the new European economic governance, and the emergence of a democratically deficient meta-constitutional mode of functioning of both the European institutions and national Constitutions.

Higher Education System Reform Jan 19 2022 Higher Education System Reform provides a comparative analysis of the position of 12 Higher Education Systems since the Bologna Declaration of 1999. It discusses and reflects on the original Bologna goals, the adopted paths of reform and the achieved results.

Re-thinking Water and Food Security Aug 22 2019 This book provides an overview, by leading world experts, on key issues in global water and food security. The book is divided in a series of over-arching themes and sections. The first part of the book provides an overview of water and food security. The second and third sections look at global trade and virtual water trade, and provide some

International Perspectives on Disability Exceptions in Copyright Law and the Visual Arts Mar 29 2020 This book provides an overview of disability exceptions to copyright infringement and the international and human rights legal framework for disability rights and exceptions. The focus is on those exceptions as they apply to visual art, while the book presents a comprehensive study of copyright's disability exceptions per se and the international and human rights law framework in which they are situated. 3D printing now allows people with a visual impairment to experience 3D reproductions of paintings, drawings and photographs through touch. At the same time, the uncertain application of existing disability exceptions to these reproductions may generate concerns about legal risk, hampering sensory art projects and reducing inclusivity and equity in cultural engagement by people with a visual impairment. The work adopts an interdisciplinary approach, with contributions from diverse stakeholders, including persons with disabilities, cultural institutions and the 3D printing industry. The book sketches the scene relating to sensory art projects. Experts in intellectual property, human rights, disability and art law then critically analyse the current legal landscape relating to disability access to works of visual art at both international and regional levels, as well as across a broad representative sample of national jurisdictions, and identify where legal reform is required. This comparative analysis of the laws aims to better inform stakeholders of the applicable legal landscape, the legal risks and opportunities associated with sensory art and the opportunities for reform and best practice guidelines, with the overarching goal of facilitating international harmonisation of the law and enhanced inclusivity.

The New Intergovernmentalism Sep 03 2020 Challenges established assumptions about how EU member states behave, what supranational institutions want, and where the dividing line between high and low politics is located. Develops and new theoretical framework and draws conclusions about the state of political disequilibrium in which the EU operates.

Borders, Asylum and Global Non-Citizenship Jul 13 2021 Explores the experiences of irregular migrants and refugees crossing borders as they resist global migration controls.

Hezbollah and Hamas Feb 26 2020 Hezbollah and Hamas are players in Middle Eastern politics and have a growing involvement in global events. Despite their different beginnings, they share a common denominator in Israel. This title offers an analysis of their histories and political missions that moves beyond reductionist portrayals of the organizations' military operations.

Access To Care and Factors That Impact Access, Patients as Partners In Care and Changing Roles of Health Providers Jan 27 2020 Part of the "Research in the Sociology of Health Care" series, this title deals with both macro-level system issues and micro-level issues involving access to care, factors that impact access, patients as partners in care and changing roles of health providers.

Structurally Deficient Bridges in the United States Feb 20 2022

QuickBooks 2009 Solutions Guide for Business Owners and Accountants Jun 12 2021 QuickBooks 2009 Solutions Guide This is the definitive, must-have reference for every business owner, entrepreneur, accountant, and bookkeeper who relies on QuickBooks 2009. Not a beginner's guide, it's a high-productivity resource for solving the problems that intermediate-to-advanced QuickBooks users encounter most often. Author Laura Madeira is superbly qualified to write this book: she has twenty years experience training professionals on Intuit products and has been selected by Intuit to introduce its new releases to accountants and entrepreneurs. Here, she offers real solutions for every QuickBooks accounting module, helping readers achieve their true goal for QuickBooks: a clear, up-to-date understanding of where the business stands, and where it's headed. Thoroughly updated for QuickBooks 2009, this book brings together indispensable, start-to-finish techniques for troubleshooting QuickBooks data files and fixing QuickBooks mistakes wherever they occur. Drawing on her unsurpassed experience, Madeira offers expert advice on every facet of QuickBooks accounting: data files, banking, A/R, undeposited funds, employee advances, inventory, A/P, sales tax, payroll, reporting, sharing data with accountants, and much more. This book will help you : • Quickly set up accurate charts of accounts — or improve existing ones • Use QuickBooks reports to understand the most important trends in your business • Correct data errors in any balance sheet account, from A/R and A/P to taxes and inventory • How to use the New for 2009! Client Data Review feature for accountants. • Properly review your payroll data and avoid expensive mistakes • Efficiently share business data with your accountant • Troubleshoot beginning balance differences, reconciliation errors, and many other problems • Learn to use the Intuit Statement Writer tool, New for 2009! Laura Madeira is founder of ACS, Inc., located in the greater Dallas, Texas area and an Intuit Solutions Provider that specializes in on-site and Internet-assisted accounting software implementation, set-up, training and troubleshooting. She has over twenty years of experience helping companies maintain accurate and timely accounting and financial information through one-on-one consulting, group classes, and web-based training. Madeira currently writes technical documentation and presentations for the QuickBooks product line as a member of the Intuit Accounting Professionals Trainer/Writer Network. She has also served on Intuit's Accountant and Customer Advisory Council and was a guest speaker for the QuickBooks Developer Network. Her "QuickBooks at Year-End" document has been distributed by Intuit at several national events and is one of Intuit's most requested training and presentation documents. Her expertise with QuickBooks and other Intuit software has been featured nationally in an Advisor Spotlight and widely-distributed promotional literature. She holds Intuit's Advanced Certified, Point of Sale Certified designations, as well as a bachelor of science in accounting from Florida Atlantic University. Category Business Finance Covers QuickBooks 2009 User Level Intermediate—Advanced

The European left and the financial crisis Sep 22 2019 This timely collection addresses key questions including: How did political parties from the Left respond to the crisis? What does the crisis mean for the relationship between the Left and European Integration, and what does it mean for socialism as an economic, political and social project?

Technological Solutions for Sustainable Business Practice in Asia Jul 25 2022 Central Asian countries play a geostrategic role in world economy and politics. As a result, efforts are being made to establish an effective channel of communication between academic and research institutions, policymakers, government agencies, and individuals concerned with the complexities of Asian business, information technologies, sustainable development, and globalization. Technological Solutions for Sustainable Business Practice in Asia provides an in-depth analysis on Asian economy, business, and management with a clear international and interdisciplinary approach. This comprehensive resource is beneficial for academics, PhD students, policymakers, and government officials.

Multi-disciplinary Lexicography Jul 21 2019 The present book is based on presentations made during the IXth International School on Lexicography, "Multi-disciplinary Lexicography: Traditions and Challenges of the XXIst Century", at Ivanovo State University, September 8-10, 2011, and continues a series of collective monographs devoted to the theoretical and practical problems of lexicography, published by Cambridge Scholars Publishing in 2007, 2009 and 2010. The scope of topics discussed in four parts (Dictionary as a Cross-road of Language and Culture, Dictionary Use and Dictionary Criticism, Terminology and LSP Studies, and Projects of New Dictionaries) is rather wide and focuses on burning problems of European, Russian and world lexicography, as well as on projects of new dictionaries. This book will be of interest to theoreticians, practitioners, and students of linguistic faculties.

ISSE 2010 Securing Electronic Business Processes Jun 19 2019 This book presents the most interesting talks given at ISSE 2010 - the forum for the inter-disciplinary discussion of how to adequately secure electronic business processes. The topics include: - Identity and Security Management - Technical and Economical Aspects of Cloud Security - Security Services and Large Scale Public Applications - Smart Grid Security and Emerging Security Solutions - Privacy and Data Protection Adequate information security is one of the basic requirements of all electronic business processes. It is crucial for effective solutions that the possibilities offered by security technology can be integrated with the commercial requirements of the applications. The reader may expect state-of-the-art: best papers of the Conference ISSE 2010.

Land Solutions for Climate Displacement May 11 2021 The threat of climate displacement looms large over a growing number of countries. Based on the more than six years of work by Displacement Solutions in ten climate-affected countries, academic work on displacement and climate adaptation, and the country-level efforts of civil society groups in several frontline countries, this report explores the key contention that land will be at the core of any major strategy aimed at preventing and resolving climate displacement. This innovative and timely volume coordinated and edited by the Founder of Displacement Solutions, Scott Leckie, examines a range of legal, policy and practical issues relating to the role of land in actively addressing the displacement consequences of climate change. It reveals the inevitable truth that climate displacement is already underway and being tackled in countries such as Bangladesh, Kiribati, Papua New Guinea, Solomon Islands, Tuvalu and the United States, and proposes a series of possible land solution tools that can be employed to protect the rights of people and communities everywhere should they be forced to flee the places they call home.

The Public Health Effects of Food Deserts Nov 17 2021 In the United States, people living in low-income neighborhoods frequently do not have access to affordable healthy food venues, such as supermarkets. Instead, those living in "food deserts" must rely on convenience stores and small neighborhood stores that offer few, if any, healthy food choices, such as fruits and vegetables. The Institute of Medicine (IOM) and National Research Council (NRC) convened a two-day workshop on January 26-27, 2009, to provide input into a Congressionally-mandated food deserts study by the U.S. Department of Agriculture's Economic Research Service. The workshop, summarized in this volume, provided a forum in which to discuss the public health effects of food deserts.

Law, Policy, and Technology: Cyberterrorism, Information Warfare, and Internet Immobilization Apr 22 2022 "This book provides relevant frameworks and best practices as well as current empirical research findings for professionals who want to improve their understanding of the impact of cyber-attacks on critical infrastructures and other information systems essential to the smooth running of society, how such attacks are carried out, what measures should be taken to mitigate their impact"--Provided by publisher.

Elementary Education in India Dec 26 2019 This book examines the policy shifts over the past three decades in the Indian education system. It explores how these shifts have unequivocally established the domination of neoliberal capital in the context of elementary education in India. The chapters in the volume: • Discuss a range of elementary education policies and programs in India with a focus on the policy development in recent decades of neoliberalism. • Analyse policy from diverse perspectives and varied vantage points by scholars, activists, and practitioners, illustrated with contemporary statistics. • Introduce the key curriculum, assessment, and learning debates from contemporary educational discourse. • Integrate the tools and methods of education policy analysis with basic concepts in education, like equality, quantity, equity, quality, and inclusion. A definitive inter-disciplinary work on a key sector in India, this volume will be essential for scholars and researchers of education, public policy, sociology, politics, and South Asian studies.

Research Handbook on Cross-Border Bank Resolution Aug 14 2021 Since 2008, many countries across the globe have witnessed the introduction of new recovery and resolution regimes for banks. Whereas much may have been achieved on regional levels, this has not been perfect, and many global challenges remain unsolved. The Research Handbook on Cross-Border Bank Resolution analyses the strengths and weaknesses of the current regulatory framework for cross-border bank crises with contributions from eminent experts from the US, EU, Japan and China. The topic is addressed from both economic, and legal perspectives, with a special section devoted to real-life cases.
