City of the Undead (In the System Book #2)

Jul 01 2020 The first stage is complete. Ivan Susanin has managed to survive and, together with the other leaders, unite the various players into the Alliance. Yet this is only the beginning. A huge goblin army is approaching from the city outskirts, while the undead roam inside the city. The people from Earth are stuck between a rock and a hard place. The only way to escape another massacre is to capture the goblin fortress, and hold out until the end of the mission. Or to abandon their wounded and scatter, hoping to avoid getting killed. This is a serious challenge for the newly formed Alliance. However, even if this risky plan succeeds, nothing is over yet. The second mission will be followed by the next and the next. The new gods will not back down, for the Altar is a unique chance for one of them to gain power and become the leader of a united Pantheon. Sooner or later, the goblins and the undead will fall, and no price is too high to secure victory. It is time to make a choice. Hide behind the safety of the walls or leave the besieged fortress and head deeper into the inner suburbs. To the domain of the undead. To where stands the temple of the fallen goblin god. To a place where one will get the chance to decide one's own fate.

Military Recruiting in the United States Feb 26 2020 Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of

Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. For more information, visit: www.counter-recruit.org

That is of course, until you decide to take on a quest that turns out to be just a little bit out of your league. How little bit you ask? Little bit enough that you end up releasing an ancient goblin queen named Vanika, who's only goal is to take over the world with her army of goblins. Yeah, looking back on it, it really wasn't one of our better decisions. But hey, it could be worse right? I mean, I can't think of anything right this second, but I'm pretty sure there's something out there that's way worse than this. But anyway, now we gotta take our extremely worn out equipment, and barely passable fighting skills, and use them to defeat an entire goblin army, including their magical, super powered queen, before they decide to take over the world. No pressure right? I mean, how hard can it really be? I guess there's only one way to find out.
