Posthumanism and the Digital University Dec 25 2019 It is a commonplace in educational policy and theory to claim that digital technology has 'transformed' the university, the nature of learning and even the essence of what it means to be a scholar or a student. However, these claims have not always been based on strong research evidence. What are students and scholars actually doing in the day-to-day life of the digital university? This book examines in detail how the world of the digital interacts with texts, artefacts, devices and humans, in the contemporary university setting. Weaving together perspectives from a range of thinkers and disciplinary sources, Lesley Gourlay draws on ideas from posthuman and new materialist theory in particular, to open up our understanding about how digital knowledge practices operate. She proposes that digital engagement in the university should not be regarded as 'virtual' or disembodied, but instead may be understood as a complex set of entanglements of the body, texts and material artefacts, making a case that agency and the ways in which knowledge emerges should be regarded as 'more than human'.

Entrepreneurship Class - 12 Model Paper Chapter wise Question Answer With Marking Scheme 2022- SBPD Publications Jul 20 2019 1.Sensing and Identification of Entrepreneurial Opportunities, 2. Overcoming Challenges in Corpus Construction Sep 14 2021 This volume offers a critical examination of the construction of the Spoken British National Corpus 2014 (Spoken BNC2014) and points the way forward toward a more informed understanding of corpus linguistic methodology more broadly. The book begins by situating the creation of this second corpus, a compilation of new, publicly-accessible Spoken British English from the 2010s, within the context of the first, created in 1994, talking through the need to balance backward capability and optimal practice for today's users. Chapters subsequently use the Spoken BNC2014 as a focal point around which to discuss the various considerations taken into account in corpus construction, including design, data collection, transcription, and annotation. The volume concludes by reflecting on the successes and limitations of the project, as well as the broader utility of the corpus in linguistic research, both in current examples and future possibilities. This exciting new contribution to the literature on linguistic methodology is a valuable resource for students and researchers in corpus linguistics, applied linguistics, and English language teaching.

Third Progress Report on Inclusion of Enhanced Contractual Provisions in International Sovereign Bond Contracts Jun 18 2019 The IMF Executive Board endorsed in October 2014 the inclusion of key features of enhanced pari passu provisions and collective action clauses (CACs) in new international sovereign bonds.¹ Specifically, the Executive Board endorsed the use of (i) a modified pari passu provision that explicitly excludes the obligation to effect ratable payments, and (ii) an enhanced CAC with a menu of voting procedures, including a “single-limb” aggregated voting procedure that enables bonds to be restructured on the basis of a single vote across all affected instruments, a two-limb aggregated voting procedure, and a series-by-series voting procedure.² Directors supported an active role for the IMF in promoting the inclusion of these clauses in international sovereign bonds.³ The IMFC and the G20 further called on the IMF to promote the use of such clauses and report on their inclusion. Since that time, the IMF has published periodic progress reports on inclusion of the enhanced clauses.⁴ These reports found that since the Executive Board's endorsement, substantial progress had been made in incorporating the enhanced clauses, with approximately 85 percent of new international sovereign bond issuances since October 2014 (in nominal principal amount) including such clauses. The reports also found that there was no observable market impact on inclusion of the enhanced clauses. However, the reports noted that the outstanding stock without the enhanced clauses remained significant, with issuers showing little appetite for liability management exercises to accelerate the turnover. This paper provides a further update on the inclusion of the enhanced clauses and on the outstanding stock of international sovereign bonds as of September 30, 2017. Section II reports on the inclusion of these enhanced provisions, finding that the vast majority of issuers are including these clauses, with only a few countries standing out against the market trend. Section II also provides an update on the outstanding stock, indicating that while the percentage of the outstanding stock with the enhanced clauses is increasing, a significant percentage of the stock still does not and little action has been taken by issuers to increase the rate of turnover. Section III briefly reports on the use of different bond structures, and Section IV describes the staff's ongoing outreach efforts and next steps.

CTET and TET English Language and Pedagogy Paper 1 and 2 for 2021 Exams Jul 12 2021 1.The book “English Language& Pedagogy” prepares for teaching examination for Paper I & II. 2.Guide is prepared on the basis of syllabus prescribed in CTET & other State TETs related examination 3.Divided in 3 Main Sections; Grammar, Unseen Prose and Poem and Pedagogy giving Chapterwise coverage to the syllabus 4.Previous Years' Solved Papers and 5 Practice sets are designed exactly on the latest pattern of the examination 5.More than 1500 MCQs for thorough for practice. 6.Useful for CTET, UPTET, HTET, UTET, CGTET, and all other states TETs. A Look into Methods for Assessing and Monitoring Pupil Progress in Secondary Schools Dec 05 2020 Essay from the year 2017 in the subject Romance Languages - General, University of Birmingham, course: PGDipEd Secondary (QTS) French, language: English, abstract: In this discussion, I evaluate my practice with regards to assessment and monitoring progress. I first consider the relevant literature and explore assessment of learning and assessment for learning, as well as suggestions for monitoring pupil progress. Assessment for learning (AfL) is defined by Driscoll, Macaro and Swarbrick as: 'formative assessment and the practical implementation of this by teachers in classrooms'. Assessment of learning (AoL), often referred to as summative assessment, 'identifies the standard of attainment achieved at a particular moment in time'. I then discuss my approach in my research design, followed by a critical evaluation of my progress so far, supported by my documentary evidence. As a key part of the teaching and learning process, assessment is a frequent focus in educational research, both generally and specifically in modern languages (ML). The Office for Standards in Education state that best practice includes 'regular assessment of all four language skills', while the Department for Education (DfE) make no specific mention of assessment in the National Curriculum. This shows that there are multiple viewpoints on the importance of assessment and monitoring.

Oswaal CBSE One for All, Economics, Class 12 (For 2023 Exam) Jun 30 2020 Chapter Navigation Tools • CBSE Syllabus : Strictly as per the latest CBSE Syllabus dated: April 21, 2022 Cir. Fiber-Wireless Convergence in Next-Generation Communication Networks Jan 26 2020 This book investigates new enabling technologies for Fi-Wi convergence. The editors discuss Fi-Wi technologies at the three major network levels involved in the path towards convergence: system level, network architecture level, and network management level. The main topics will be: a. At system level: Radio over Fiber (digitalized vs. analogic, standardization, E-band and beyond) and 5G wireless technologies; b. Network architecture level: NGPON, WDM-PON, BBU Hotelling, Cloud Radio Access Networks (C-RANs), HetNets. c. Network management level: SDN for convergence, Next-generation Point-of-Presence, Wi-Fi LTE Handover, Cooperative MultiPoint.

Paper-based Diagnostics Aug 01 2020 This book explores the status of paper-based diagnostic solutions, or Microfluidics 2.0. The contributors explore: how paper-based tests can be widely distributed and utilized by semi-skilled personnel; how close to commercial applications the technology has become, and what is still required to make paper-based diagnostics the game-changer it can be. The technology is examined through the lens of the World Health Organization's ASSURED criteria for low-resource countries (Affordable, Sensitive, Specific, User-friendly, Rapid and robust, Equipment-free, and Deliverable to end-users). Its applications have to include: health technology, environmental technology, food safety, and more. This book is appropriate for researchers in these areas, as well as those interested in microfluidics, and includes chapters dedicated to principles such as theory of flow and surface treatments; components such as biomarkers and detection; and current methods of manufacturing. Discusses how paper-based diagnostics can be used in developing countries by comparing current diagnostic tests with the World Health Organization's ASSURED criteria Examines how paper-based diagnostics could be integrated with other technologies, such as printed electronics, and the Internet of Things. Outlines how semi-skilled personnel across a variety of fields can implement paper-based diagnostics

Learning to Teach in the Secondary School Sep 02 2020 Learning to teach involves hard work and careful preparation. To become an effective teacher requires pedagogical and subject knowledge, an understanding of your pupils and how they learn, and the confidence to respond to dynamic classroom situations. Learning to Teach in the Secondary School is the market leading text for all undergraduate, postgraduate and school-based routes to qualified teacher status. It offers an in-depth and practical introduction to the knowledge, skills and understanding needed to become a confident and effective teacher. With a focus on evidence-based practice, the book includes a wealth of examples to demonstrate how to successfully apply theory to practice, and how to critically analyse your practice to maximise pupil learning. This 7th edition is fully updated in light of the latest initiatives, evidence and research in the field, offering comprehensive coverage, unit by unit, of the key concepts and skills addressed on initial teacher education courses in preparation for work in schools. The wide range of pedagogical features support both university based work - including that up to Masters Level - and school-based initial teacher education, and are designed to help you develop those qualities that lead to good practice and a successful future in education. Written by expert practitioners, thirty-six essential units include: • adopting a positive approach to managing behaviour to support learning • ways pupils learn • planning lessons, units of work and schemes of work • motivating pupils • assessment • inclusion and special educational needs • using ICT and digital technologies • pupil grouping, progression and differentiation • managing time, workload and stress • getting your first teaching post. Learning to Teach in the Secondary School provides practical help and guidance for many of the situations and potential challenges you are faced with in school. Supported by the Learning to Teach Subjects in the Secondary School Series, it is an essential purchase for every aspiring secondary school teacher.

Atlas of Knowledge Nov 16 2021 The power of mapping: principles for visualizing knowledge, illustrated by many stunning large-scale, full-color maps. Maps of physical spaces locate us in the world and help us navigate unfamiliar routes. Maps of topical spaces help us visualize the extent and structure of our collective knowledge; they reveal bursts of activity, pathways of ideas, and borders that beg to be crossed. This book, from the author of Atlas of Science, describes the power of topical maps, providing readers with principles for visualizing knowledge and offering as examples forty large-scale and more than 100 small-scale full-color maps. Today, data literacy is becoming as important as language literacy. Well-designed visualizations can rescue us from a sea of data, helping us to make sense of information, connect ideas, and make better decisions in real time. In Atlas of Knowledge, leading visualization expert Katy Börner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis. Drawing on fifteen years of teaching and tool development, she introduces a theoretical framework meant to guide readers through user and task analysis; data preparation, analysis, and visualization; visualization deployment; and the interpretation of science maps. To exemplify the framework, the Atlas features striking and enlightening new maps from the popular "Places & Spaces: Mapping Science" exhibit that range from "Key Events in the Development of the Video Tape Recorder" to "Mobile Landscapes: Location Data from Cell Phones for Urban Analysis" to "Literary Empires: Mapping Temporal and Spatial Settings of Victorian Poetry" to "Seeing Standards: A Visualization of the Metadata Universe." She also discusses the possible effect of

science maps on the practice of science.
