ECCWS2015-Proceedings of the 14th European Conference on Cyber Warfare and Security 2015 Oct 03 2020 Complete proceedings of the 14th European Conference on Cyber Warfare and Security Hatfield UK Published by Academic Conferences and Publishing International Limited *Globalism, Localism and Identity* Dec 25 2019 Global economic and social forces are affecting everyone, everywhere. However, their influence is shaped by local communities' interpretation of these forces and responses to them. Social identities provide a guide; they are the product of history, culture, economy, patterns of governance and degree of community cohesion. How the global and the local connect and reconfigure at various scales and through different cultures is explained in this forward-looking volume. The book's thesis, namely that localism is the crucial complement to globalism, is supported by a range of European case studies. Local responses to globalizing forces depend on the nature of the interlinkages in governance from international structures, through multilateral organizations to nation states, regions and localities, as these are mediated through social-local identity. The contributors draw on numerous themes in examining the interaction between the global and the local, such as decay and revitalization, local identity and empowerment, opportunism through sustainability and governance for the transition. This is a pioneering publication utilizing an innovative person-centred methodology. It makes an original and important contribution to the study of contemporary societies and is aimed at anyone interested in the social, economic, political, cultural and environmental implications of any move towards sustainability.

Tort Law in Portugal Mar 28 2020 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in Portugal. This traditional branch of law not only tackles questions which concern every lawyer, whatever his legal expertise, but also concerns each person's most fundamental rights on a worldwide scale. Following a general introduction that probes the distinction between tort and crime and the relationship between tort and contract, the monograph describes how the concepts of fault and unlawfulness, and of duty of care and negligence, are dealt with in both the legislature and the courts. The book then proceeds to cover specific cases of liability, such as professional liability, liability of public bodies, abuse of rights, injury to reputation and privacy, vicarious liability, liability of parents and teachers, liability for handicapped persons, product liability, environmental liability, and liability connected with road and traffic accidents. Principles of causation, grounds of justification, limitations on recovery, assessment of damages and compensation, and the role of private insurance and social security are all closely considered. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for lawyers Portugal. Academics and researchers will also welcome this very useful guide, and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort.

Contractualisation of Family Law - Global Perspectives Oct 23 2019 This volume presents global and comparative perspectives on the perpetual pendular movement of family law between status and contract. It contributes to the topical academic debate on ‘family law exceptionalism’ by exploring the blurred lines between public law, private law and family law, and sheds light on the many shades of grey that exist. The contributions focus on both substantive and procedural family law on parents and children and on life partners, with particular attention for contractual arrangements of family formations and of conflict resolution. The hypothesis underlying all contributions was the trend towards contractualisation of family law. A convergent research outcome resulting from the comparison of national reports was the ambivalent position of family law in legal systems worldwide. That comparison shows that, whereas family law is clearly moving towards contract with regard to old family formations, the contrary is true for new family formations. The movement towards contract is rarely considered to be contractualisation *pur sang*, with civil effect. The movement towards status, finally, does not necessarily witness ‘family law exceptionalism’ vis-à-vis private law, in view of the increasing State interventionism in private law relations in general. In sum, as the volume shows, the high permeability of the demarcations between the State, the family and the market impedes a categorical approach. This volume is based on the general and selected national reports on the topic “Contractualisation of Family Law” that were presented at the XIXth International Congress of Comparative Law in Vienna in July 2014.

[A History of Portuguese Overseas Expansion 1400–1668](#) Jun 11 2021 A History of Portuguese Overseas Expansion 1400-1668 provides an accessible survey of how the Portuguese became so influential during this period and how Portuguese settlements were founded in areas as far flung as Asia, Africa and South America. Malyn Newitt examines how the ideas and institutions of a late medieval society were deployed to aid expansion into Africa and the Atlantic islands,

as well as how, through rivalry with Castile, this grew into a worldwide commercial enterprise. Finally, he considers how resilient the Portuguese overseas communities were, surviving wars and natural disasters, and fending off attacks by the more heavily armed English and Dutch invaders until well into the 1600s. Including a detailed bibliography and glossary, *A History of Portuguese Overseas Expansion 1400-1668* is an invaluable textbook for all those studying this fascinating period of European expansion

Spanish and Brazilian Portuguese Pronunciation Aug 13 2021 This book contrasts variations in Spanish and Brazilian Portuguese pronunciation, using as a reference for discussion the mainstream careful speech of news anchors at the national level or the equivalent type of speech: a well-educated style that nonetheless sounds natural. Pursuing an innovative approach, the book uses this view of language as a cornerstone to describe and discuss other social and regional variants relative to that speaking register. It is aimed at speakers of Spanish interested in learning Portuguese and speakers of Portuguese who want to learn Spanish, as well as language specialists interested in bilingualism, heritage languages, in the teaching of typologically similar languages in contrast, and readers with interest in Phonetics and Phonology. The book employs a variety of innovative approaches, especially the reinterpretation of some of the traditional concept in Phonetics, and the use of speech prosodies and speech melodies, a user-friendly strategy to describe speech prosody in languages and

The Portuguese in Malay Land Aug 25 2022 In his book “The Study Of Ancient Times In The Malay Peninsula”, Dato Sir Roland Braddell (1880-1966) writes, “No statement could be more untrue or more unwise than that Malaya has no history”. This dense work of 458 pages (reprinted edition no. 7 by MBRAS in 1989), from Dato Sir Braddell's studies appearing in the “Journal of Asiatic Society”, between 1935 and 1951, is followed by 50 pages of notes on the historical geography of Malaya and sidelights on the Malay Annals by Dato F.W. Douglas, a contemporary of Braddell. Sir Roland examines the book VII of “Ptolemy's Geographica” written about 160 AD, which sends us back to the land of Ophir of the Bible, also called “Golden Chersonese”, where gold of higher purity had already been found around 3000 years ago in today's Pahang. As to the human presence, the “Malay Orang”, “being an islander”, (he) was able to sail the Eastern seas long before the people of the mainland could; and by such contacts achieved a higher state of civilization: he took the products of this area, gold, incense, spices and the Malayan jungle fowl with him and then the people of other countries came here”, according to F.W. Douglas in the conclusion of his foreword, dated 15.1.1949. Malays are therefore inborn sea traders.

The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. The Portuguese-Speaking Diaspora Dec 05 2020 Long before the concept of "globalization," the Portuguese constructed a vast empire that extended into Africa, India, Brazil, and mid-Atlantic territories, as well as parts of China, Southeast Asia, and Japan. Using this empire as its starting point and spanning seven centuries and four continents, The Portuguese-Speaking Diaspora examines literary and artistic works about the ensuing diaspora, or the dispersion of people within the Portuguese-speaking world, resulting from colonization, the slave trade, adventure seeking, religious conversion, political exile, forced labor, war, economic migration, and tourism. Based on a broad array of written and visual materials, including historiography, letters, memoirs, plays, poetry, fiction, cartographic imagery, paintings, photographs, and films, The Portuguese-Speaking Diaspora is the first detailed analysis of the different and sometimes conflicting cultural productions of the imperial diaspora in its heyday and an important context for understanding the more complex and broader-based culture of population travel and displacement from the former colonies to present-day "homelands." The topics that Darlene J. Sadlier discusses include exploration and settlement by the Portuguese in different parts of the empire; the Black Atlantic slave trade; nineteenth-century travel and Orientalist imaginings; the colonial wars; and the return of populations to Portugal following African independence. A wide-ranging study of the art and literature of these and other diasporic movements, this book is a major contribution to the growing field of Lusophone studies.
