I've Gotten a DWI/DUI. Now What? Aug 05 2020 Some young people are surprised to learn that the penalties for drinking and driving are much more severe than getting a traffic ticket due to carelessness or bad judgment. Depending on the state, driving while intoxicated or driving under the influence (DWI/DUI) charge is a misdemeanor or a felony crime that involves the criminal court or juvenile justice system. Readers learn about case terminology, their legal rights and responsibilities, the legal process involved in a

DWI/DUI charge, and what happens after a conviction. This volume includes information about state, community, and school programs that address ways to reduce impaired driving.

The Senior Driver's Survival Guide Aug 29 2022 Senior Drivers! Your future is in jeopardy. A disturbing situation is developing in the United States. Since people are living longer, the number of drivers over 65 is escalating three times as rapidly as the general driving population. Older people have difficulty concentration, shorter attention spans and failing vision among other ailments. Unfortunately this results in frequent driving mishaps, sometimes with catastrophic results. Taking away their driving privileges would deprive them of their self esteem and independence. This could happen if they continued to have accidents caused by their propensity to get distracted easily and lose concentration. Some states have already enacted laws requiring re-exams for seniors. No doubt many more will follow. Driving slower in traffic is not the answer. This could cause accidents. Driving too fast would be worse since a person's attention span and reaction time deteriorate with age. It does not matter how skillful he or she once were, aging diminishes skill in

almost all areas including the operation of a motor vehicle. Driving today has become more complex as many more cars are on the road. When seniors started to drive, turnpikes and expressways were non-existent. After observing the avoidable accidents seniors were having, and realizing how their ranks were exploding, I decided to write “The Senior Driver’s Survival Guide” – subtitled What You Must Know to Protect Your Driving Privileges. Its contents can enable older drivers to drive with a more acute awareness and help them to be better drivers in their “Golden” years. It is an important book which has the power to change and save lives.

Suspension and Revocation of Drivers' Licenses Sep 17 2021

Minnesota's Double-barrelled Implied Consent Law Jun 14 2021 To ensure that a driver's license is revoked promptly when a test shows an alcohol concentration of 0.10 or more, regardless of court outcome or plea bargaining on the criminal charge, Minnesota adopted an administrative revocation law 1976, adding to the conventional implied consent revocation for refusing to take the test. This law was unique to Minnesota until 1981 when two other jurisdictions passed similar laws. In 1982 three more, and in 1983 thirteen more states established similar prompt revocation on test result systems. The author describes the Minnesota law as amended in 1982 and discusses legal and constitutional issues. Effect on apprehension rates, swiftness of sanction, deterrence and perceived risk are analyzed. The author concludes that a two-track DWI control system employing both prompt administrative driver license sanctions on one track and conventional court action on a related but not directly connected parallel criminal track enhances deterrence through more certain, swift penalty, perceived by drivers as severe.
