Passionate about detail, Chris and Susan McIntyre have carried out extensive on-the-ground research in producing this updated edition. There has been significant growth in the number of hotels, lodges and guesthouses on all three main islands since the last edition and, consequently, the accommodation listings have increased significantly: notably in Zanzibar Town (Stone Town), Matemwe, Michamvi Peninsula, and Mafia island. They visited all the accommodation listed. With almost 300 properties featured, many are newly built and the vast majority (spanning all budget levels) do not feature in any other guide on the market. Each entry has a detailed description with a strong emphasis on guiding readers to the most ethical options. Zanzibar goes into far greater depth than its competitors on the natural environment, history, culture, and sights. Few other guide books cover the islands of Pemba and Mafia in any detail and yet they are easily combined in a trip. With a focus on the environment, visitors are directed towards fair-trade shopping opportunities and sustainable marine parks. This new edition also includes a dedicated section on southern Tanzanian safaris, making this guide excellent for readers looking for a bush and beach combination. Advice is given on how to be sensitive to the local Muslim culture. Bradt's guide is the most frequently and scrupulously updated guide available, vital for a destination with tourism growing and changing so rapidly.

**Robert Trent Jones Golf Trail** Jul 31 2020 The Robert Trent Jones Golf Trail tells how a bold, imaginative investment by a public employee pension fund turned into a world-class tourist attraction that helped change the image and boost the economy of an entire state. The pension fund was the Retirement Systems of Alabama, and its alternative investment was in a string of golf courses and affiliated high-end hotels and spas. In business-speak, this was an "economically targeted investment" designed to diversify returns, create jobs, and increase tax revenue. Twenty-five years later, the Robert Trent Jones Golf Trail is known worldwide for the quality and beauty of its courses and the hospitality and elegance of its resorts. It has significantly increased Alabama's infrastructure for tourism and conventions, provided millions upon millions in new tax revenues, spurred construction of thousands of units of adjacent housing, and helped persuade other businesses to locate in the state. Making the Golf Trail a reality involved not only the initial vision of CEO David G. Bronner and his associates at RSA, but also the design genius and reputation of Robert Trent Jones Sr. and the hard work of many dedicated engineers and builders. It also required the cooperation of scores of local and state elected officials and economic developers. This book is the illustrated historical account of the financial, legal, political, and economic impact details of RSA's investment in the RTJ Golf Trail. Such a detailed history could not have been written without the years of economic analysis conducted by author Mark Fagan dating back to the earliest stages of the concept. Fagan's ongoing involvement with Dr. Bronner and those working to develop the Trail made possible the mammoth one-of-a-kind history that is presented in this book.

**Tourism and Citizenship** Sep 20 2019 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights, the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate. However, despite the fact that cross-border travel implies certain citizenship rights as well as the material capacity to travel, the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature. This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically-informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship, with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel. The text weaves its analysis of citizenship and travel in the context of addressing large-scale societal transformations engendered by globalization, neoliberalism and the geopolitical realignments between states, as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves. By doing so, it focuses on key themes including: tourism and social citizenship rights; race, culture and minority rights; states, markets and the freedom of movement; tourism, peace and geo-politics; consumerism and class; and, ethical tourism, global citizenship and cosmopolitanism. The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity. This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science. The royalties received from this book will be donated to the International Porter Protection Group.
