the British and Irish perspective on the English civil wars, the English revolution, the Regicide, and Cromwellian period. The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies. The contributors provide up-to-date analysis of the political happenings, considering the structures of social

General extenders are phrases like 'or something', 'and everything', 'and things (like that)', 'and stuff (like that)', and 'and so on'. Although they are an everyday feature of spoken language, are crucial in successful interpersonal communication, and have multiple functions in discourse, they have so far gone virtually unnoticed in linguistics. This pioneering work provides a comprehensive description of this new linguistic category. It offers new insights into ongoing changes in contemporary English, the effect of grammaticalization, novel uses as

associative plural markers and indicators of intertextuality, and the metapragmatic role of extenders in interaction. The forms and functions of general extenders are presented clearly and accessibly, enabling students to understand a number of different frameworks of analysis in discourse-pragmatic studies. From an applied perspective, the book presents a description of translation equivalents, an analysis of second language variation, and practical exercises for teaching second language learners of English.

Preservation

Education Dec 29 2019 Over the past twenty years, there has been a fundamental shift in the institutional organization of historic preservation education. Historic

preservation is the most recent arrival in the collection of built environment disciplines and therefore lacks the pedagogical depth and breadth found in allied endeavors such as architecture and planning. As the first degree programs in preservation only date to the 1970s and the first doctoral programs to the 1990s, new faculty are confronted with pedagogical challenges that are unique to this relatively nascent field. Based on a conference that included educators from around the world, Barry L. Stiefel and Jeremy C. Wells now present a collection that

address fundamental issues of preservation pedagogy, outcome-based education and assessment, and global issues of authenticity and significance in historic preservation. The editors argue that the subject of the analysis has shifted from, "What is the best way to fix a historic building?" to, "What are the best ways for teaching people how to preserve historic properties (and why) according to the various standards that have been established?" This important reconsideration of the state of the field in historic preservation education will appeal to a broad
