Paul Tillich Sep 15 2021 This collection of essays considers various aspects of Paul Tillich's theology of nature, culture, and politics in relation to major theological movements, thinkers, and events of the twentieth century. These essays are not purely an exercise in historical theology but an apology for Tillich's theological, philosophical, and ethical project. The underlying assumption is that Tillich's theology, both in form and content, is worth reading and learning from in the modern and postmodern era, even though we inhabit today an intellectual environment not very amenable to Tillich's form of mediation.

The Socialist Decision Apr 22 2022 About the Contributor(s): Paul Tillich (1886-1965), an early critic of Hitler, was barred from teaching in Germany in 1933. He emigrated to the United States, holding teaching positions at Union Theological Seminary, New York (1933-1955); Harvard Divinity School (1955-1962); and the University of Chicago Divinity School (1962-1965). Among his many books are *Theology of Culture*, *Dynamics of Faith*, and the three volumes of *Systematic Theology*.

The Courage to Be Nov 17 2021 Originally published more than fifty years ago, *The Courage to Be* has become a classic of twentieth-century religious and philosophical thought. The great Christian existentialist thinker Paul

Tillich describes the dilemma of modern man and points a way to the conquest of the problem of anxiety. This edition includes a new introduction by Harvey Cox that situates the book within the theological conversation into which it first appeared and conveys its continued relevance in the current century. “The brilliance, the wealth of illustration, and the aptness of personal application . . . make the reading of these chapters an exciting experience.”—W. Norman Pittenger, *New York Times Book Review* “A lucid and arresting book.”—Frances Witherspoon, *New York Herald Tribune* “Clear, uncluttered thinking and lucid writing mark Mr. Tillich’s study as a distinguished and readable one.”—*American Scholar* Selected as one of the Books of the Century by the New York Public Library

Theology of Culture May 23 2022 Attempts to show the religious dimension in many special spheres of man's cultural activity.

TILLICH Jul 25 2022 Paul Tillich exercised a major influence on twentieth century Christian thought. In this brief introduction to his work, Dr. Daniel Peterson makes the case for Tillich's broader relevance again as a theologian who can take us beyond the extremes of fundamentalist religion and empty skepticism to a deeper religious faith or spiritual path open to doubt and questioning.

Dynamics of Faith Aug 26 2022 One of the greatest books ever written on the subject, *Dynamics of Faith* is a

primer in the philosophy of religion. Paul Tillich, a leading theologian of the twentieth century, explores the idea of faith in all its dimensions, while defining the concept in the process. This graceful and accessible volume contains a new introduction by Marion Pauck, Tillich's biographer.

The Shaking of the Foundations Sep 27 2022 Author Biography: Paul Tillich (1886-1965), an early critic of Hitler, was barred from teaching in Germany in 1933. He emigrated to the United States, holding teaching positions at Union Theological Seminary, New York (1933-1955); Harvard Divinity School (1955-1962); and the University of Chicago Divinity School (1962-1965). Among his many books are "Theology of Culture, Dynamics of Faith," and the three volumes of "Systematic Theology."

Paul Tillich Jan 19 2022 Paul Tillich, forced into exile by the Nazis in 1933, settled in the United States. His many theological works and especially his three volume Systematic Theology have had a profound influence upon contemporary religious thought. This volume concentrates on the key texts and ideas in Tillich's thought. It presents the essential Paul Tillich for students and the general reader. Taylor's introductory essay and notes on the selected texts set Tillich in his historical context, chart the development of this thought and indicate the significance of his theology in the development of Christian theology as a whole. Substantial selections from Tillich's work illustrate key themes: --The struggle for a new theonomy

--Protestant theology amid socialist crisis --In the sacred void: being and God --Amid structures of destruction: Christ as new being --Among the ambiguities of life: Spirit and churches --In the end: revisioning and hope

Paul Tillich and Psychology Apr 10 2021 Paul Tillich, more than any other theologian of the twentieth century, maintained an energetic dialogue with psychology, and especially psychotherapy. This book explores what Tillich's theology has to offer psychologists and others working in the field of mental health, spiritual development, and pastoral counseling. Tillich's interaction with Carl Rogers, Erich Fromm, Rollo May, and other famous psychologists became an important part of his thinking. Tillich frequently pushed psychologists to see the underlying philosophical assumptions of their work. This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning, purpose, and ethics that informed their work. Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group, which involved such figures as Tillich, Fromm, May, Rogers, Seward Hiltner, Ruth Benedict, and David Roberts, to name just a few. This important group, which met from 1941 to 1945, dealt with issues that are very much with us today, such as whether faith can be psychologically explained, the meaning of transcendence, the relationship between psychotherapy and ethics, the

appropriateness of self-love, and whether human love is parallel with Divine love.

Paul Tillich - Journey to Japan in 1960 Sep 22 2019 In the summer of 1960 Paul Tillich visited Japan. Together with his wife Hannah, he spent eight weeks in the country sightseeing, lecturing, and having discussions with local scholars. This monograph provides the first comprehensive documentation of Tillich's journey, highlighting the political context and the itinerary of his visit. Moreover, Tomoaki Fukai presents the manuscripts of Tillich's lectures, his conversations with leading Buddhists in Kyoto, and his correspondence with his Japanese hosts.

The Fabric of Paul Tillich's Theology May 31 2020 By taking seriously Tillich's claim to be a confessional Church theologian rather than a metaphysician with religious interests, this carefully ordered study gains a fresh perspective on the structure of argument upon which his theological enterprise rests. Scriptural material is shown to control his judgments in much the same way that literature controls those of the literary critic--a particularly illuminating comparison in view of his argument that the verbal icon provided by the biblical picture of Jesus as the Christ bears *analogia imaginis* to the historical Jesus and hence provides the sole access to the original Christian revelation. Tillich's movement from symbols as data to theological judgments as conclusions is seen to be warranted, not by his ontology, but by his

presentation of the phenomenology of revelatory events. Though historical study of Jesus and of the Bible is in principle irrelevant to this use of scripture, his confusions in this area are examined, and the structural flaws in his accounts of the biblical picture of Jesus are shown to yield a Christian theology in which Christology is oddly dispensable. Finally, his discussion of God is used as a test case for the analysis of the general structure of his argument, and the various sorts of conclusions that he feels Scripture authorizes him to draw are cogently appraised.

The Essential Tillich Oct 04 2020

Love, Power, and Justice Jul 13 2021 Speaking with understanding and force, Tillich offers a basic analysis of love, power, justice, and all concepts fundamental in the mutual relations of people, of social groups, and of humankind to God. His concern is to penetrate to the essential, or ontological foundation of the meaning of each of these words.

The Existential Theology of Paul Tillich Aug 22

2019 Evaluation of philosophical aspects of the contemporary Protestant existentialist theologian by a Jewish thinker, with comprehensive bibliography.

Returning to Tillich Aug 02 2020 Fifty years after his death in 1965 the essays in this collection return to Paul Tillich to investigate his theology and its legacy, with a focus on contemporary British scholarship. Originating in a conference held in Oxford in 2014, the book contains 16

original contributions from a mixture of junior and more established scholars, most of whom have a connection to Britain. The contributions are diverse, but four themes emerge throughout the volume. Several essays are concerning with a characterisation of Tillich's theology. In dialogue with recent emphases on the radical Tillich, some essays suggest a more conservative estimation of Tillich's theology, rooted in the Idealist and classical Christian platonic traditions, whilst in constant engagement with changing existential situations. Secondly, and perhaps reflecting the context of religious diversity and theories of religious pluralism in Britain, many essays engage Tillich's approach to non-Christian religions. Thirdly, some essays address the importance of existentialist philosophy for Tillich, notably via an engagement with Sartre. Finally, a number of essays take up the diagnostic potential of Tillich's theology as a resource for engaging contemporary challenges.

Paul Tillich's Philosophy of Art Jun 19 2019

Paul Tillich Sep 03 2020 This book offers a moving tribute to one of the twentieth century's most seminal philosophers and theologians, Paul Tillich. In fact, it is widely accepted as the standard biography for Tillich. A soberly objective portrait, it was supported by Tillich himself, who hoped that the full telling of his story would set in context its unconventional aspects (as told in books by Hannah Tillich and Rollo May). Wilhelm and Marion Pauck have recreated the many-sided "Paulus" in all his

greatness and humanness. Tracing the development of Tillich's thought alongside the unfolding of his life in Germany and the United States, the authors have provided an excellent model of biographical research.

Ground of Being Mar 21 2022 These fascinating articles and lectures by Paul Tillich have never been reprinted from their original publications over half a century ago. They shed much light on Tillich's own thinking as well as that of Luther and Calvin, Bultmann, Kierkegaard, and others. He explores the nature of religious symbols, Christian Socialism, and the doctrine of Jesus Christ. Students and clergy brought up on today's thin theological gruel will be amazed at what they have missed!

Tillich Jan 07 2021 Paul Tillich (1886-1965) was a remarkable and a singular theologian who was as much at home in a philosophical discussion as he was in the pulpit and seemed as keenly interested in art and politics as he was in his work as a professional theologian. His attacks on Nazism led to the banning of his books, his dismissal from Frankfurt University and, ultimately, his departure for the United States in November 1933. He continued to live and work in America after the war, engaging in many lecture tours around the world. Professor Heywood Thomas reviews critically the philosophical background to Tillich's theology, including his debts to Schelling, Kant and Husserl. He surveys Tillich's achievement as a philosophical theologian, examining his ontological approach to Christology and salvation and his

understanding of the Church as a spiritual community. He concludes with an exploration of Tillich's contribution to the changed situation of theology today. Tillich's many points of contact with key thinkers in theology and philosophy (including Heidegger, Otto, Bultmann, Adorno and Barth) make him a compelling figure for those interested in the history of ideas in the twentieth century.

A History of Christian Thought, from Its Judaic and Hellenistic Origins to Existentialism Oct 16 2021

Professor Tillich analyzes the development of Christian theology

Paulus, Then and Now Jul 21 2019 -- Is The Courage to Be still a viable analysis of the human situation? -- Does Tillich's positive sense of Eros illumine our intense discussions of human sexuality? -- Does Postmodernism really dissolve Tillich's major assumptions? -- Can Tillich contribute to the contemporary discussion of science and religion? -- How does his work stand when compared to other writers on creation, such as Langdon Gilkey and Sallie McFague? -- Given the paradoxes of Tillich's life, is his ethical theory still viable? In Paulus, Then and Now: A Study of Paul Tillich's Theological World and the Continuing Relevance of his Work, John J. Carey clarifies previously neglected foundational aspects of Tillich's thought. Carey places Tillich's theological work in political, social, economic, and scholarly context. He also explains Tillich's thinking on Luther, Marx, history, and

politics, and his unique perspective on the Bible and on biblical authority. Having accomplished these things, Carey then moves to show how Tillich's thinking can be applied to contemporary problems.

The Irrelevance and Relevance of the Christian

Message Apr 29 2020 'The Irrelevance and Relevance of the Christian Message' is a transcript of Paul Tillich's 1963 Earl Lectures at the Graduate Theological Union. Delivered just two years before his death, these lectures present Tillich's heartfelt and deeply personal understanding of the relevance of Christian preaching and Christian theology. Why, Tillich asks, has the Christian message become seemingly irrelevant to contemporary society? Is the gospel able to give answers to the questions raised by the existentialist analysis of the human predicament? Yes, he answers -- but in order to do so Christian teaching and preaching need to undergo dramatic renewal, the root of which requires an affirmation of love as central to Christian identity. Further, we need to recognize that this task is not limited to preachers and theologians; all of us together are responsible for the irrelevance or the relevance of the gospel in our time.

Paul Tillich Jun 24 2022 Pomeroy gives the reader a clear view of the Systematic Theology of Paul Tillich, perhaps the greatest theologian of the 20th century. Tillich's theology addresses a wide range of theological issues beginning with the nature of God and ending with the

nature of Eternal Life. Using the latest in social science analysis, Tillich identifies specific conditions confronted by individuals and nations, addressing each from a Bible-based theological standpoint. At the end of each chapter Pomeroy illustrates the issues at hand with real life stories or reflections from leading scientists, theologians and social scientists. This is then followed by discussion questions. The book is a welcome relief for theologians and lay people alike as it has depth without all those written words. For a mainline church study group it is a primer.

Paul Tillich, Carl Jung and the Recovery of Religion

Mar 09 2021 Is religion a positive reality in your life? If not, have you lost anything by forfeiting this dimension of your humanity? This book compares the theology of Tillich with the psychology of Jung, arguing that they were both concerned with the recovery of a valid religious sense for contemporary culture. Paul Tillich, Carl Jung and the Recovery of Religion explores in detail the diminution of the human spirit through the loss of its contact with its native religious depths, a problem on which both spent much of their working lives and energies. Both Tillich and Jung work with a naturalism that grounds all religion on processes native to the human being. Tillich does this in his efforts to recover that point at which divinity and humanity coincide and from which they differentiate. Jung does this by identifying the archetypal unconscious as the source of all religions now

working toward a religious sentiment of more universal sympathy. This book identifies the dependence of both on German mysticism as a common ancestry and concludes with a reflection on how their joint perspective might affect religious education and the relation of religion to science and technology. Throughout the book, John Dourley looks back to the roots of both men's ideas about mediaeval theology and Christian mysticism making it ideal reading for analysts and academics in the fields of Jungian and religious studies.

Against the Third Reich Nov 05 2020 Paul Tillich, one of the greatest Protestant theologians of modern times, wrote more than one hundred radio addresses that were broadcast into Nazi Germany from March 1942 through May 1944. The broadcasts were passionate and political--urging Germans to recognize the horror of Hitler and to reject a morally and spiritually bankrupt government. Largely unknown in the United States, the broadcasts have been translated into English for the first time, and approximately half of them are presented in this book.

Paul Tillich and His System of Paradoxical Correlation Mar 29 2020 This book shows the paradoxical mode by which Christians keep their faith in the Christian message as they relate with science. It reveals how Paul Tillich's method of correlation helps us to understand how Christians interact with science without necessarily conflicting, separating, and dialoguing, and synthesizing with each other. It rules out natural theology but provides

a non-eclectic theology of nature that frees Christians to be involved in science meaningfully and without undermining their faith.

Paul Tillich and Asian Religions Oct 24 2019 This volume investigates Paul Tillich's relationship to Asian religions and locates Tillich in a global religious context. It appreciates Tillich's heritage within the western and eastern religious contexts and explores the possibility of global religious-cultural understanding through the dialogue of Tillich's thought and East-West religious-cultural matrix.

Pastor Tillich Feb 08 2021 Pastor Tillich: The Justification of the Doubter tells the story of Paul Tillich's early theological development from his student days until the end of the First World War, set against the backdrop of church politics in Wilhelmine Germany and with particular reference to his early sermons. The majority of scholarship understands Tillich primarily as a philosophical theologian. But before and during the First World War, Tillich was Pastor Tillich, studying to become a pastor, leading a Christian student group, working periodically as a pastor in Berlin churches, and preaching to soldiers. Arriving in Berlin after the war, Tillich pursued religious socialism and a theology of culture through the 1920s. But the theological basis of these programmes was what Tillich considered his main concern in 1919: the theology of doubt. Using a wealth of untranslated German sources largely unknown to English-language scholarship, Pastor Tillich presents the stations of Tillich's theological development of the notion of the justification of the doubter up to 1919. Distinguishing between Tillich's later autobiographical statements and the witness of archival sources, a significantly original, contextualised account of Tillich's early life in Germany emerges. From his days as the conservative son of a conservative Lutheran pastor to the battle-worn chaplain who could even talk about 'faith without God', Tillich

underwent considerable change. The book should therefore speak to any interested in the history of modern theology, as an example of how biography and theology are intertwined.

The Cambridge Companion to Paul Tillich Feb 20 2022 This authoritative Companion to the theologian Paul Tillich provides an accessible account of the major themes in his diverse theological writings. It embodies and develops recent renewed interest in Tillich's theology and reaffirms him as a major figure in today's theological landscape.

They are grouped into eight sections: ultimate concerns; symbols of faith; Protestant principle; addressing the situation; love, power and justice; courage to be; future of religions.

Eros Toward the World Jan 27 2020 Alexander Irwin's original and important work retrieves and develops the often-neglected but extremely fruitful notion of eros in Paul Tillich's thought. Irwin's recovery of Tillich's rich concept shows how eros is a crucial dimension in human existence and a driving force in all human creativity - in

art, social ethics, politics, and religion. Yet Tillich's theology and his personal life also contained a destructive aspect that begs the question of relational justice. Confronting the demonic in eros leads Irwin to augment Tillich's notion with recent feminist theologies of the erotic and yields a profound and promising avenue for contemporary religious thought.

Tillich and World Religions May 11 2021 The importance of Paul Tillich for understanding not only Christian faith but all religious systems is still being realized. Tillich is widely recognized as the theologian of the modern age--or, as many would have it, the postmodern age. For a new age of preoccupation with interreligious encounters--wherein tolerance may be the watchword but the quest for truth and faith maintains--Robison James reintroduces Tillich as an effective pedagogue for dealing with such encounters and for discovering, in the clamor of so many noisy, insistent religious systems, a voice of truth. James has reread Tillich with the specific purpose of discovering how we may deal with the many kinds of interreligious encounters that have been growing in frequency and importance. Such encounters, James points out, range from reading about "another religion" to "visiting" the other's observances, to dialogue with its members, to simply puzzling over how "my" faith (or nonfaith) relates to this or that "religion." Tillich's lifelong existential encounter with religious systems and his perceptive appraisal of

those systems, James concludes, can lead us to the best attitude for our own quest for a way of faith and life among so many "ways" clamoring for our attention. Tillich's theology, James suggests, may best be understood as a synthesis of dialectics and paradox. Further--James contends--the attitude most characteristic of Tillich's thought, "reciprocal inclusivism, " is to be recommended as the best attitude for our own quest for the word of truth among so many noisy voices.

Life as Spirit Dec 26 2019 Paul Tillich is exceptional in modern theologians that his distinctive and abundant understanding of the concept of life and spirit has the potential to engage with other disciplines, such as biology, psychology, cosmology and social science; and that his ontological understanding of "life as spirit" which is so crucial in the ecological consideration, is so complex and subtle that enables powerful and critical inter-religious dialogue in environmental ethics. This book argues that, despite the fact that Tillich did not engage in ecological and environmental theology directly, his abundant personal experience of nature-mysticism and intellectual understanding of the idea of nature rooted in his Lutheran and German idealist heritages and, more importantly, his ontological-pneumatological holistic and multi-dimensional conception of unifying and differentiated reality, perfectly and organically coupled with the theonomous vision of theology of culture, nature and morality is profoundly ecologically oriented.
