Patrolling Baghdad Dec 06 2020 Captures the experiences of an Illinois National Guard unit in the city of Baghdad, where it worked with other MP units to restore order to the chaotic streets, while simultaneously helping to rebuild Iraqi police forces and act as boots-on-the-ground diplomats in the inevitable clash of cultures.

The Rice Queen Diaries Feb 26 2020 A poignant, insightful memoir about

gay desire, culture, and otherness.

Leaving the Pink House Sep 15 2021 Ladette Randolph understands her life best through the houses she has inhabited. From the isolated farmhouse of her childhood, to the series of houses her family occupied in small towns across Nebraska as her father pursued his dream of becoming a minister, to the equally small houses she lived in as a single mother and graduate student, houses have shaped her understanding of her place in the world and served as touchstones for a life marked by both constancy and endless cycles of change. As Randolph and her husband struggle to bring a dilapidated farmhouse on twenty acres outside Lincoln, Nebraska, back to life, Randolph reflects on the houses of her past and the stages of her life that played out in each, both painful and joyful. She simultaneously traces the contours of a life deeply shaped by the Nebraska plains, where her family has lived for generations, and how those roots helped her find the strength to overcome devastating losses as a young adult. Weaving together strands of departures and arrivals, new houses and deep roots, cycles of change and the cycles of the seasons, *Leaving the Pink House* is a richly layered memoir of the meaning of home and family, and how they can never really leave us, even if we leave them--Excerpted from publisher statement.

The Trials of Lenny Bruce (Enhanced) May 23 2022 “The book is indispensable.” —Booklist “Detailed, objective, and valuable.” —Kirkus Reviews “Generating a gamut of emotions, the entire package is an important documentation of a revolution in American culture.”

—Publishers Weekly 10th Anniversary Edition—Includes a New Preface by the Authors When it first came out in 2002, *The Trials of Lenny Bruce* quickly established itself as the definitive work on Lenny Bruce’s free speech battles over his provocative comedy. Originally packaged with an audio CD, this 10th Anniversary Enhanced eBook edition includes audio from Lenny Bruce’s most controversial performances, as well as exclusive author interviews with George Carlin, Hugh Hefner, Paul Krassner, Margaret Cho, and the lawyers who defended and prosecuted him. Also included are archival audio clips secretly recorded during Lenny’s New York obscenity trial. *The Trials of Lenny Bruce* is an important document of the free speech struggles of an icon of American comedy who, by speaking his mind and fighting the good fight, paved the way for every standup comedian, satirist, and social critic who followed him. Not only did *The Trials of Lenny Bruce* set the record straight on Lenny, being named one of the best books of the year by the L.A. Times, the authors led the successful push for the late comedian’s posthumous pardon in 2003

for his 1964 conviction on obscenity charges in New York.

University Builder Aug 14 2021 Rice University, one of America's preeminent institutions of higher education, grew out of the vision, direction, and leadership of one man: Edgar Odell Lovett (1871--1957). University Builder is the fascinating story of this extraordinary educator and the unique school he created. Widely acknowledged, almost from its founding in 1912, as one of America's best universities, Rice is distinguished as both the smallest and the youngest institution in the top tier of American universities. In telling the tale of Lovett and his innovative, enduring vision for Rice, John Boles provides both a compelling biographical narrative and a refreshing new view of American higher education in the first half of the twentieth century. Lovett was not a Texan; he was not even a southerner. Rather, with two Ph.D.'s in hand, he was a rising star at Princeton University when the trustees of the newly founded Rice Institute--chartered in 1891 by wealthy Houston merchant William Marsh Rice--called him in 1907 to be the school's first president. Working with a significant endowment, a vague charter, a supportive board, and a visionary's gift for planning, Lovett set out on a fact-finding tour of educational institutions around the globe. He transformed the idea of the Institute into a complete university, one that emphasized research as much as teaching and aspired to world-class status. He sought the best architect available to design the campus, lured distinguished faculty from leading universities across the globe to Texas, and constructed a far-

reaching vision of a small, carefully planned, elite university that incorporated the most advanced educational practices and shaped Rice's development for the next century. Lovett served as president of Rice for nearly forty years, proving himself to be an exemplary and charismatic leader who inspired two generations of students. He was the creator of Rice University in practically every way. Indeed, perhaps no other American university has been so shaped by its founder's vision. Boles's exceptional account of Lovett's remarkable academic achievement is a vital contribution to the legacy of Rice University and an important addition to the historiography of education in the early twentieth-century South.

Leadership Reckoning Jun 19 2019 Since its inception, higher education in the U.S. has claimed to develop leaders. This bold claim appears in college mission statements and mottos, and it is reinforced in recruiting materials and ad campaigns. But is this claim justified? *Leadership Reckoning* takes to task American colleges and universities for their haphazard, incoherent, evidence-free approaches to developing students as leaders and offers a principle-driven, outcome-oriented blueprint for how effective leader development can occur. Higher education has both the opportunity and the responsibility to take leader development seriously and create the leaders we need. It's high time that happens, and *Leadership Reckoning* points the way. "Take it from me, as someone who has worked in both government and business: leadership matters! In the face of global challenges like the climate crisis and the Covid-19 pandemic, the need for good leaders in every part of society has never been greater. In *Leadership Reckoning*, the Doerr Institute for New Leaders pioneers a data-driven approach to make the development of moral leadership a core function of college education. This book is a must read for the leaders of today and tomorrow." -Al Gore, Former Vice President of the United States "This book is a gem of a resource for institutions of higher education considering their role and approach in preparing the rising generation to exert the leadership our world needs. It is hard to imagine a more important question for revitalizing our colleges and universities and, most importantly, for getting on the path to realizing our collective aspirations for a just, sustainable, and peaceful world." -Wendy Kopp, CEO and Co-founder of Teach for All "Our students will impact the world in far greater proportion than their numbers. Higher Education needs to fulfill its currently broken promise to students and society: to intentionally and genuinely prepare them to lead in a complex and hyper-connected world. This book makes a compelling case for leadership being central to university mission and more importantly, delivering on that mission." -Cynthia Cherrey Ph.D., President & CEO, International Leadership Association "Higher education institutions have

an urgent obligation to develop real-world leadership skills in students, and the authors provide innovative, practical ways to accomplish that mission. This groundbreaking book is a must-read for every university administrator and board member." -John R. Ryan, President & CEO, Center for Creative Leadership, Former Chancellor, State University of New York "Imagine every student at your institution having the opportunity to formally participate in developing their leadership skills. Imagine that those who participate come to see themselves as better leaders, perform more effectively as leaders, and do better in school than those who don't. Imagine no more. This is happening right now, and authors Tom Kolditz, Libby Gill, and Ryan Brown show you where and how in Leadership Reckoning. Kolditz, Gill, and Brown begin with an insightful critique of the current state of affairs, and then they spend equal time documenting an evidence-based approach that creatively and effectively responds to unmet needs." -Jim Kouzes, coauthor of the bestselling and award-winning, The Leadership Challenge, and former Dean's Executive Fellow of Leadership, Leavey School of Business, Santa Clara University
