everyday friendships—to provide each other support, empowerment, inspiration, and the strength to solve problems or enact meaningful change. Whether they are facing adversity (like workplace inequity or a global pandemic) or organizing to make the world a better place, women are a highly potent resource for one another. Through a mix of journalism and personal narrative, Baldwin takes readers beyond the big headline-making huddles from recent years (such as the Women's March, #MeToo, Times Up, and the record number of women running for public office) and embeds herself in groups of women of all ages, races, religions and socio-economic backgrounds who are banding together in America. **HUDDLE** explores several stories including: The benefits of all-girls learning environments, such as Karlie Kloss's Kode with Klossy and Reese Witherspoon's Filmmaker Lab for Girls in which young women are given the freedom to make mistakes, and find their confidence. The tactics employed by huddles of women who work in male-dominated industries including a group of US veterans/Democratic Congresswomen, a huddle of African-American judges in Harris County, Texas, and an all-female writers room in Hollywood. The wisdom of huddling from trusted pioneers such as Gloria Steinem, Billie Jean King, and Madeleine Albright as well as contemporary trailblazers like Stacey Abrams and Ava DuVernay. How professionals such as Chef Dominique Crenn and sports agent Lindsay Colas use their success to amplify other women in their fields. The ways huddles of women are dedicated to making seismic change, including a look at Indigenous women saving the planet, the women who founded Black Lives Matter, the mothers fighting for sensible gun laws, America's favorite female athletes (Megan Rapinoe, Hilary Knight, and Sue Bird to name a few) agitating for equal pay, and female teachers rallying to improve their working conditions. The bond between women who practice self-care and trauma healing together, including the women who courageously survived sexual abuse, and the women who heal together in *The Class* and *GirlTrek*. The ways women are becoming more intentional about the life-saving power of friendship, including the bonds between military wives, new moms, and nurses getting through the time of Covid. Throughout her examination of this fascinating huddle phenomenon, Baldwin learns about the periods of huddle 'droughts' in America, as well as the ways that Black women have been huddling for centuries. She also uncovers how huddling can be the "secret sauce" that makes many things possible for women: success in the workplace, effective grassroots change, confidence in girlhood, and a better physical and mental health profile in adulthood. Along the way, Baldwin takes readers through her own personal journey of growing up in the South and climbing the ladder of a male-dominated industry. Like so many women in her field, she encountered many sharp elbows on her career path, but became an early believer in adding more seats to the table and huddling with other women for strength and solidarity. In the process of writing **HUDDLE**, Baldwin learns that this seemingly new phenomenon is actually something women have been doing for generations—a quiet, collective power she

learns to unlock in her transformation from journalist to champion for women.

How Music Empowers Jul 24 2019 How Music Empowers argues that empowerment is the key

to unlocking the long-standing mystery of how music moves us. Drawing upon cutting-edge research in embodied cognitive science, psychology, and cultural studies, the book provides a new way of understanding how music affects listeners. The argument develops from our latest conceptions of what it is to be human, investigating experiences of listening to popular music in everyday life. Through listening, individuals have the potential to redefine themselves, gain resilience, connect with other people, and make a difference in society. Applying a groundbreaking theoretical framework to postmillennial rap and metal, the book uncovers why vast numbers of listeners engage with music typically regarded as 'social problems' or dismissed as 'extreme'. In the first ever comparative analytical treatment of rap and metal music, twenty songs are analysed as case studies that reveal the empowering potential of listening. The book details how individuals interact with rap and metal communities in a self-perpetuating process which keeps these thriving music cultures - and the listeners themselves - alive and well. Can music really change the world? How Music Empowers answers: yes, because it changes us. How Music Empowers will interest scholars and researchers of popular music, ethnomusicology, music psychology, music therapy, and music education.

A Leader's Guide to Unlocking Gen Z Dec 09 2020 This book version is in full color and ideal for teams and group learning! Hannah Grady Williams—a 23-year-old Gen Z'r herself—gives leaders a rare glimpse into Gen Z's worldview and provides practical tools they can implement immediately. After graduating from college at 18, Hannah set out to consult firms, from start-ups to Fortune 500 companies, including the likes of Chick-fil-A franchises and 9Round Fitness. You've read articles about the next generation at work. You know Gen Z is more diverse, entrepreneurially driven, and technologically savvy than any other generation. But why should you care? And more

importantly: What's the first step your organization should take to embrace and lead Gen Z effectively? This isn't your traditional textbook report. It's your no-BS guide to connect with Gen Z in the workplace, simplifying how leaders and recruiters can adapt their strategies to attract, retain, engage, and lead the next generation of employees, with actionable, step-by-step assessments and exercises. When companies hire Gen Zers, they are no longer hiring just an employee—they are hiring a brand. Gen Z brings digital consumer expectations to the workplace, demands innovation and efficiency, and shares some surprisingly "old-fashioned" habits with their Gen X and baby boomer colleagues. Yes, there are some stark differences from their millennial predecessors, and you'll want to hear them straight from the voice of Gen Z. In *A Leader's Guide to Unlocking Gen Z*, Hannah Grady Williams answers these questions: Who is Gen Z . . . and why do you need to know? What is the "NarcisStory" and why must leaders understand it to effectively recruit, retain, and communicate with Gen Z? What do HR executives, recruiters, business owners, and forward-thinking managers need to do to remain relevant? What are simple steps leaders and companies can take with Gen Z to unlock their potential? Gen Z is rewriting how we do business, and these are decisive times. Companies who adapt now will have the competitive edge, and *A Leader's Guide to Unlocking Gen Z* is the key to unlocking the potential of this high-performing and rapidly emerging generation.

Unlock Congress Jul 04 2020 The American people are disgusted with the U.S. Congress. In 2014, public approval of the first branch of government reached a forty-year low. Congress is producing legislation at a historically anemic rate, while many of the nation's immediate problems fester. Those are the facts. The fiction? The notion that we can't do anything about it. The U.S. Constitution assigned obligations to our legislative branch calling on our elected representatives to promote the general welfare. Congress is in breach of contract. In *Unlock Congress*, veteran journalist and former political strategist Michael Golden examines the ways in which congressional failure generates a harmful PRODUCT. Rather than affixing blame to individual politicians, Golden diagnoses the causes behind the breakdown. He then identifies the PROBLEM obsolete rules that lead to major defects within the system. Finally, *Unlock Congress* lays out a PLATFORM of solutions designed to reinvigorate both the process and its players.

Unlocked Jun 02 2020 Convinced of God's plan for every person's life, my journey to unlock and empower leaders began. Thousands of leaders waited on the other side of my obedience. I could never have dreamt what God

would do when He unlocked my life and the lives of others. Do you want your life to unlock? Unlock to understand God's supernatural provision, unlock to discover God's heavenly abode. Unlock to see God's miracles signs and wonders In the unlocking of God's plan for my life, I became a tourist. No fixed abode, no place to call home, living out of bags, travelling all the time, no income to depend upon, only God's provision. What does it mean? Just do it! This became my story to just do it! Whatever God said, do it! For every branch of the tourism venture, there was a battle. Every step required a victory. Journeys on the world's worst roads, travelling on the world's worst train, closely knit with beggars, thieves, and prostitutes, but firmly in the hand of God and His protection. Baptisms in green slime, deliverance for thousands, secret conferences. Being a nomad requires action, effort, a plan, a purpose, a vision; moving from one venture to another, from one adventure to another, from nation to nation to see God move. Empowering and strengthening leaders throughout the third world, training, releasing, mentoring leaders became my life. This is my story unlocked.

Unlocking Leadership Mindtraps Jan 28 2020 Author and consultant Jennifer Garvey Berger has worked with all types of leaders—from top executives at Google to nonprofit directors who are trying to make a dent in social change. She hears a version of the same plea from every client in nearly every sector around the world: "I know that complexity and uncertainty are testing my instincts, but I don't know which to trust. Is there some way to know what to do when I can't know what's next?" Her newest work is an answer to this plea. Using her background in adult development, complexity theories, and leadership consultancy, Garvey Berger discerns five pernicious and pervasive "mind traps" to frame the book. These are: the desire for simple stories, our sense that we are right, our desire to get along with others in our group, our fixation with control, and our constant quest to protect and defend our egos. In addition to understanding why these natural impulses steer us wrong in a fast-moving world, leaders will get powerful questions and approaches that help them escape these patterns.

Empowerment in Practice Feb 29 2020 "This document offers an excellent explanation of the concept of empowerment and develops a very useful framework for disentangling and clarifying the concept. It is both practical and well justified on the basis of the literature. The approach and survey instruments developed to measure empowerment are innovative and very useful. Developing an approach to empirically measure empowerment, and to track empowerment indicators over time in a way that is operationally feasible and consistent with World Bank standards is certainly an outstanding achievement."
