Wheelock's Latin 7th Edition Nov 07 2020 For nearly sixty years, Wheelock's Latin has remained the optimus liber of beginning Latin textbooks. When Professor Frederic M. Wheelock's Latin first appeared in 1956, the reviews extolled its thoroughness, organization, and conciseness; one reviewer predicted that the book "might well become the standard text" for introducing students to elementary Latin. Now, nearly six decades later, that prediction has certainly proved accurate. This new edition of Wheelock's Latin has all of the features, many of them improved and expanded, that have made it the bestselling single-volume beginning Latin textbook: 40 chapters with grammatical explanations and readings drawn from the works

of Rome's major prose and verse writers; Self-tutorial exercises, each with an answer key, for independent study; An extensive English – Latin/Latin – English vocabulary section; A rich selection of original Latin readings—unlike other Latin textbooks, which contain primarily made-up texts; Etymological aids, maps, and dozens of images illustrating aspects of the classical culture and mythology presented in the chapter readings. Also included are expanded notes on the literary passages, comments on vocabulary, and translation tips; new comprehension and discussion questions; and new authentic classical Latin readings, including Roman graffiti, in every chapter.

The Two Babylons Jun 22 2019 Fully Illustrated High Res. Images. Complete and Unabridged. Expanded Seventh Edition. This is the first and only seventh edition available in a modern digital edition. NOTHING is left out! New material not found in the first six editions!!! Available in eBook and paperback edition exclusively from CrossReach Publications. See below for A. W. Pink's glowing review and an intro by Alexander Hislop. "In his work on "The Two Babylons" Dr. Hislop has proven conclusively that all the idolatrous systems of the nations had their origin in what was founded by that mighty Rebel, the beginning of whose kingdom was Babel (Gen. 10:10)."--A. W. Pink, The Antichrist (1923) There is this great difference between the works of men and the works of God, that the same minute and searching investigation, which displays the defects and imperfections of the one, brings out also the beauties of the other. If the most finely polished needle on which the art of man has been expended be subjected to a microscope, many inequalities, much roughness and clumsiness, will be seen. But if the microscope be brought to bear on the flowers of the field, no such result appears. Instead of their beauty diminishing, new beauties and still more delicate, that have escaped the naked eye, are forthwith discovered; beauties that make us appreciate, in a way which otherwise we could have had little conception of, the full force of the Lord's saying, "Consider the lilies of the field, how they grow; they toil not, neither do they spin: and yet I say unto you, That even Solomon, in all his glory, was not arrayed like one of these." The same law appears also in comparing the Word of God and the most finished productions of men. There are spots and blemishes in the most admired productions of human genius. But the more the Scriptures are searched, the more minutely they are studied, the more their perfection appears; new beauties are brought into light every day; and the discoveries of science, the researches of the learned, and the labours of infidels, all alike conspire to illustrate the wonderful harmony of all the parts, and the Divine beauty that clothes the whole. If this be the case with Scripture in general, it is especially the case with prophetic Scripture. As every spoke in the wheel of Providence revolves, the prophetic symbols start into still more bold and beautiful relief. This is very strikingly the case with the prophetic language that forms the groundwork and corner-stone of the present work. There never has been any difficulty in the mind of any enlightened Protestant in identifying the woman "sitting on seven mountains," and having on her forehead the name written, "Mystery, Babylon the Great," with the Roman apostacy.
