The Frighteners Oct 04 2020 For fans of *Stiff* by Mary Roach and *Ghostland* by Colin Dickey—an ordained minister seeks to uncover the reasons we are drawn to the morbid side of life. *The Frighteners* is a bizarrely compelling, laugh-out-loud exploration of society's fascination with the dark, spooky, and downright repellent, written by a man who went from horror-obsessed church hater to a God-fearing Christian, who then reconciled his love of the macabre with his new faith. Laws takes us on a worldwide adventure to shine a light on the dark corners of our own minds. He meets the people who collect serial killers' hair, spends a night in a haunted hotel, and has dinner with a woman who keeps her own coffin in her living room, ready for the big day. He's chased by zombies through an underground nuclear bunker, hunts a supposed real-life werewolf through the city streets, and meets self-proclaimed vampires who drink actual blood. From the corpse-packed crypts of Rome to the spooky streets of a Transylvanian night, he asks why he, and millions of other people, are drawn to ponder monsters, ghosts, death, and gore. And, in a world that worships rationality and points an accusing finger at violent video games and gruesome films, can a love of morbid culture actually give both adults and children safe ways to confront our mortality? Might it even have power to re-enchanted our jaded world? Grab your crucifixes, pack the silver bullets, and join the Sinister Minister on this celebratory romp through our morbid curiosities. "This is not simply a defense of a genre that routinely comes under fire for its graphic violence; it's an intelligent, perceptive, and very well written successor to Stephen King's 1981 classic, *Danse Macabre*." —Booklist "A unique blend of personal experience, research, and humor...as entertaining, informative, and insightful as it is hilarious." —Foreword Reviews "Phrases like page-turner and tour-de-force are slapped on any old tome these days, but in this case, it is fully deserved. Truly the Bill Bryson of the horror think-piece, in literary terms, the highest honor this writer can bestow upon another." —Starburst magazine "Full of blood and guts and brains and heart, Peter Laws's work is a fearless and ultimately emotional exploration for anyone who's ever wondered why they were drawn to the macabre, and what it says about them." —Mike Bockoven, author of *Fantasticland* and *Pack*

Dickens' Dreadful Almanac Dec 26 2019 Under the headings of 'Narrative of Law and Crime' and 'Narrative of Accident and Disaster' may be found an astonishing catalogue of terrible, grisly and most dreadful Victorian events. Fires and railway disasters abound; shipwrecks, floods and 'horrible affairs' leap from every page. Some of the crimes would surprise even the most ardent fan of crime fiction - it is doubtful that so many cases of such shocking violence and awful ingenuity have been collected together in one volume since. With a terrifying tale for every day of the year, Dickens' *Dreadful Almanac* will delight lovers of his work everywhere.

A Rich Young Man Mar 21 2022 St. Anthony of Padua has been a friend to millions of Catholics asking his help to recover lost objects. But few seem to know much about his remarkable life. The son of a knight in the court of Portugal's king, he renounced his heritage of wealth and power to become a Franciscan priest. In the years to come, he earned international fame as a preacher, reformer, miracle worker, champion of the poor, and Doctor of the Church. A generation ago, the American Catholic novelist John Edward Beahn presented Anthony's life and legends in a biographical novel, *A Rich Young Man: A Novel Based on the Life of St. Anthony of Padua*, published in 1953. This imaginative re-telling of the saint's story, based on historical records and traditions, now comes to life again in the TAN Legend series of biographical fiction. The tale unfolds in the epic setting of medieval Europe of the thirteenth century. Monarchs, courtiers, churchmen, knights, nobles and serfs maneuver like chess pieces in an elaborate game of alliances and conflicts between Church and state, Christian and Muslim, Catholic and heretic. Anthony's story takes us from North Africa where divine providence saved the young friar from his mistaken zeal for martyrdom to Italy and France, where his extraordinary gifts and heroic passion for God

blazed a path to the rescue and conversion of countless souls. This TAN Legend edition of *A Rich Young Man: A Novel Based on the Life of St. Anthony of Padua* paints a rich, fascinating portrait of an astonishing saint who turned the medieval Christian world upside down.

The 12th SS Panzer Division "Hitlerjugend" Jan 27 2020 This book demythologises one of the top Waffen-SS units during the Second World War, the Hitlerjugend Division. In addition to bringing together new research in European historiography, it also represents an innovative scientific approach using social psychology. It provides insights into inner psychological mechanisms that facilitated moral disengagement and culminated in the division's unparalleled combat motivation and war crimes. Best known for their alleged fanaticism, Nazi indoctrination and inclination to perpetrate atrocities, Hitlerjugend soldiers are analysed here using perspectives drawn from across sociology, anthropology and psychology.

Historic Haunts of Sumner County, Tennessee Mar 29 2020 From the homes of the first settlers in Middle Tennessee to Gallatin's public square and everywhere in between, there is not a more haunted county in America. The Winchesters' unique and architecturally impressive Cragfont had mysterious occurrences from its very beginnings in the late 1700s. Gallatin's public square, its courthouse, loft apartments and places of business have hauntings that seem to specifically point to restless spirits still unsettled from the oppressive days of Civil War occupation by a brutal commanding officer of the Union army. Even the modern subdivisions are not immune to the supernatural, hosting everything from flying cryptids to tormented spirit-remnants of the bloody conflict between settlers and Native Americans. Author Donna Lyn Hartley details the spooky side of Sumner County.

The 12th Man Oct 28 2022 The book of heroism and survival that inspired the international film of the same name. "A must-read . . . intrigue, suspense, and adventure." —The Norwegian American "I remember reading *We Die Alone* in 1970 and I could never forget it. Then when we went to Norway to do a docudrama, people told us again and again that certain parts were pure fiction. Since I was a Norwegian that was not good enough; I had to find the truth. I sincerely believe we did," writes author Astrid Karlsen Scott. *The 12th Man* is the true story of Jan Baalsrud, whose struggle to escape the Gestapo and survive in Nazi-occupied Norway has inspired the titular movie. In late March 1943, in the midst of WWII, four Norwegian saboteurs arrived in northern Norway on a fishing cutter and set anchor in Toftefjord to establish a base for their operations. However, they were betrayed, and a German boat attacked the cutter, creating a battlefield and spiraling Jan Baalsrud into the adventure of his life. The only survivor and wounded, Baalsrud begins a perilous journey to freedom, swimming icy fjords, climbing snow-covered peaks, enduring snowstorms, and getting caught in a monstrous avalanche. Suffering from snow blindness and frostbite, more than sixty people of the Troms District risk their lives to help Baalsrud to freedom. Karlsen Scott and Haug meticulously researched this book for more than five years to bring forth the truth behind this captivating, edge-of-your-seat, real-life survival story. "A compelling story of courage and triumph against incredible odds, and set against the backdrop of the war that was to forever change the world." —The Midwest Book Review

Jun 24 2022 This volume presents the proceedings of ECSCW 2011, the 12th European Conference on Computer Supported Cooperative Work. Each conference offers an occasion to critically review our research field, which has been multidisciplinary and committed to high scientific standards, both theoretical and methodological, from its beginning. The papers this year focus on work and the enterprise as well as on the challenges of involving citizens, patients, etc. into collaborative settings. The papers embrace new theories, and discuss known ones. They contribute to the discussions on the blurring boundaries between home and work and on the ways we think about and study work. They introduce recent and emergent technologies, and study known social and collaborative technologies, such as wikis and video messages. Classical settings in computer supported cooperative work, e.g. meetings and standardization are also looked upon anew. With contributions from all over the world, the papers in interesting ways help focus on the European perspective in our community. The 22 papers selected for this conference deal with and reflect the lively debate currently ongoing in our field of research.
