First Language Influences on Multilingual Lexicons Mar 29 2020 This collection brings together recent research on the influences between first and additional languages with a focus on the development of multilingual lexicons. Featuring work from an international group of scholars, the volume examines the complex dynamics underpinning vocabulary in second and third languages and the role first languages play within this process. The book is organized around three different facets of research in this area – lexical recognition, processing, and knowledge; the effects of first languages on second language reading and writing, collocations, and translation skills; and, vocabulary testing – drawing on examples from a variety of languages, including European languages, Arabic, and Japanese. Setting the stage for further research on the interplay between first languages and multilingual lexicons, this volume is key reading for students and researchers in applied linguistics, language learning and teaching, bilingualism, second language acquisition, and translation studies.

Ploughshares and Swords Jan 27 2020 India's nuclear program is often misunderstood as an inward-looking endeavor of secretive technocrats. In *Ploughshares and Swords*, Jayita Sarkar challenges this received wisdom, narrating a global story of India's nuclear program during its first forty years. The book foregrounds the program's civilian and military features by probing its close relationship with the space program. Through nuclear and space technologies, India's leaders served the technopolitical aims of economic modernity and the geopolitical goals of deterring adversaries. The politically savvy, transnationally connected scientists and engineers who steered the program obtained technologies, materials, and information through a variety of state and nonstate actors from Europe and North America, including both superpowers. They thus maneuvered around Cold War politics and the choke points of the nonproliferation regime. Hyperdiversification increased choices for the leaders of the nuclear program but reduced democratic accountability at home. The nuclear program became a consensus-enforcing device in the name of the nation. *Ploughshares and Swords* is a provocative new history with global implications. It shows how geopolitical and technopolitical visions influence decisions about the nation after decolonization. Thanks to generous funding from the Swiss National Science Foundation, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

Meditations Books 7-12 Aug 14 2021 Meditations Books 7-12: French to English - The English text has translated from the French. - The French text has been re-worked. - Contains commentaries on some parts of the text. - Contains a summary of French grammar. - Contains Grammar tips from digital edition Translation Skills Test. THIS EDITION: This text contains Books 7-12 of an untitled collection of works known as "Meditations," written by the Roman emperor Marcus Aurelius Antoninus Augustus. This volume contains commentaries to help explain obscure parts of the text, and to provide context. It also includes an introductory section summarising the important aspects of French grammar. The digital edition also contains a translation skills test. (Includes verb conjugation and other grammar hints.) The print edition contains the grammar hints in the digital edition 'translation skills test', excluding the verb conjugation hints. The dual-language text has been arranged into small bilingual snippets for quick and easy cross-referencing. The content is ideal for assisting the intermediate language learner to transition to foreign language only content. Also, if the content is too difficult, there is other material put out by 2Language Books that can help. The digital edition also contains the content in 'English to French' format. If you are a beginner, read the native language snippet first. If you are at an intermediate level, read the foreign language snippet first. The advanced level is like the beginners level, except you have to try and figure out the foreign language text, instead of having it provided. One way to do this is to cover the foreign text snippet. In the digital edition, you can take an intermediate or advanced level skills test. Please also note, the print versions in 'English to French' and 'French to English' are two separate books. Many basic language books offer some form of audio support. Internet services - primarily news based radio stations - offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources (as digital content), an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources. I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S. ****I would like to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W. *****
